

THE SIMPLEST SECURE TELEMEDICINE SOLUTION AVAILABLE.

Connect with patients face-to-face from any smartphone. With over 75% of U.S. physicians utilizing our secure network and communications, we provide a telemedicine solution that is easy to use for the physician, patient, and the hospital.

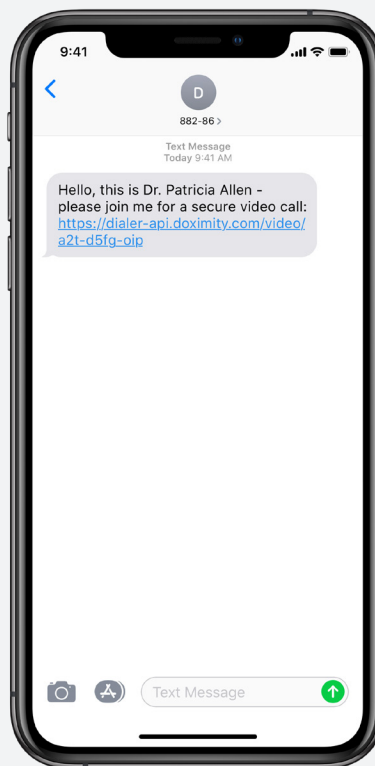

Doximity was created to simplify and support the work of healthcare providers. Our platform is secure, facilitating encrypted, HIPAA-compliant communications with patients.

HOW IT WORKS

You start the call.

Your patient receives a text.

It's that easy.

It's like being able to FaceTime with your patient and your private number stays private. Priceless.

—Dr. Ronald Parris, MD

BENEFITS

INTEGRATES WITH EPIC'S HAIKU

Clinicians can click on patient's numbers in Haiku and will be taken directly to Dialer Pro

NO PATIENT APP TO DOWNLOAD

After receiving a text invitation to join the call, patients give their consent and can participate right away

CUSTOM CALLERID

Clinicians can call patients on their cell phone, but patients will see the call coming from their office or number of their choice

BRING YOUR TEAM

By clicking on the "Share" button, you can add additional participants to the call

VIRTUAL WAITING ROOM

No need to wait for the patient to join the call. Clinicians will receive a text once their patient is ready

STAY ORGANIZED

Clinicians can go back and view their past video call times and durations

PARTNERSHIP DETAILS

Dialer Pro

- Telemedicine tool that enables clinicians to video call their patients in a reliable and secure way, directly from the their own smartphone or desktop
