

Transform the Patient Experience

In today's world, healthcare organizations need to quickly shift course to respond to emergency situations, adopting new approaches and rethinking how to better deliver patient care without compromising quality.

ProSys Virtual Rounding Powered by Microsoft Teams transforms the patient experience enabling providers to continue delivering exceptional patient care while protecting their staff from excessive exposure.

Challenges

Worldwide Shortage of Personal Protective Equipment (PPE)

Patient Volumes Increasing Daily

Healthcare Professionals & Patients at Risk During Rounds

Our Solution

Making Rounds Simpler & Safer

Rapidly and securely deploy easy-to-use telemedicine to maximize hospital resources and minimize risk with **ProSys Virtual Rounding Powered by Microsoft Teams**

Enable Timely Check-ins with Appropriate Healthcare Professionals

Reduce Exposure to Contagions

Substantially Lower Demand for PPE

Allow Healthcare Professionals to Care for more Patients

Promote the High-quality Care that Contributes to Successful Outcomes

Fast to Deploy, Simple to Use

Rooms are equipped with a laptop or tablet that includes a custom configuration of Microsoft Teams & a staff member launches the videoconference

To begin virtual rounds, healthcare professionals simply select from a list of relevant rooms equipped with Microsoft Teams

The patient is alerted when the healthcare professional joins the session & they engage in one-on-one consultation

The audio & video connection are secure with the laptop or tablet "locked down" prohibiting access to hospital systems or Protected Health Information (PHI)

- Procurement of devices & software
- Solution design & implementation
- "Week One" onsite support
- Remote first-call support
- Full breadth of enablement & lifecycle services
- Microsoft Gold Cloud Productivity Competency

ProSys Transforms the Patient Experience

ProSys offers expert, proven solutions across the IT landscape, leveraging a differentiated partner network, ensuring clients benefit from leading-edge technology. Our specialized suite of Emergency Response Solutions can be implemented quickly and with zero friction to your workforce or existing support model.
