Gender: Male
DOB: Feb 19, 2009

Grade: 8
Level: Upper Grades 8–11
Test Date: May 01, 2023
Registration ID: 180524553

How to Interpret Your Scores

How are my scores calculated?
Upper Level and Middle Level SSAT: Scores are calculated by awarding one point for each correct answer and subtracting one-quarter of one point for each incorrect answer.
Elementary Level SSAT: Scores are calculated by awarding one point for each correct answer and zero points for each incorrect answer.
* All scores are scaled scores.

What is a score range?
We provide a score range to emphasize the possibility of small score differences if you had taken a different edition of the test instead of the one you took, accounting for changes in difficulty and different editions of the test. A statistical procedure called “equating” is used to adjust for these differences. Even after these adjustments, no single test score provides a perfectly accurate estimate of your proficiency.

What does “Not Answered” mean?
Questions not answered include both skipped questions and questions not reached. The number of Correct, Incorrect, Not Reached, or Not Answered questions should not be compared between different test takers. The number of Correct, Incorrect, Not Reached, or Not Answered not only depends on the test taker’s ability but also depends on the difficulty of the questions.

What do percentiles mean?
SSAT percentiles have a range from 1 to 99, indicating that your scaled score was equal to or higher than the percentage of other test takers shown. If you are concerned that your percentile is lower than other scores, that may be because SSAT test takers are a small and highly competitive group of students who plan to go to the world’s best independent schools.
