Jordan’s Total SSAT Score Summary

**Your Score: 2100**

- *Average 8th Grade Score: 1500*
- *2400 being a perfect score*
- *Jordan scored equal to or higher than 73% of students in grade 8*

**Verbal 56th Percentile**

- **Your Score: 674**
- *Average 8th Grade Score: 655*
- *If taken multiple times, your score would fall between 560–607*
- *Total Items: 60*
- *Correct: 34 Incorrect: 26 Not Answered: 0*
- *Synonyms Total: 30 Correct: 18 Incorrect: 12 Not Answered: 0*
- *Analogies Total: 30 Correct: 16 Incorrect: 14 Not Answered: 0*

**Quantitative 72nd Percentile**

- **Your Score: 719**
- *Average 8th Grade Score: 680*
- *If taken multiple times, your score would fall between 570–732*
- *Total Items: 50*
- *Correct: 30 Incorrect: 20 Not Answered: 0*
- *Number Concepts & Operations Total: 27 Correct: 19 Incorrect: 8 Not Answered: 0*
- *Algebra, Geometry & Other Total: 23 Correct: 11 Incorrect: 12 Not Answered: 0*

**Reading 84th Percentile**

- **Your Score: 707**
- *Average 8th Grade Score: 655*
- *If taken multiple times, your score would fall between 644–759*
- *Total Items: 40*
- *Correct: 37 Incorrect: 3 Not Answered: 0*
- *Reading Main Idea & Context Total: 26 Correct: 25 Incorrect: 1 Not Answered: 0*
- *Reading Higher Order & Interpretation Total: 14 Correct: 12 Incorrect: 2 Not Answered: 0*

How to Interpret Your Scores

**How are my scores calculated?**

Upper Level and Middle Level SSAT: Scores are calculated by awarding one point for each correct answer and subtracting one-fourth of a point for each incorrect answer.

Elementary Level SSAT: Scores are calculated by awarding one point for each correct answer and zero points for each incorrect answer.

*All scores are scaled scores.*

**What is a score range?**

We provide a score range to emphasize the possibility of small score differences if you had taken a different edition of the test instead of the one you took, accounting for minor differences in difficulty and different administrations of the test. A statistical procedure called “equating” is used to adjust for these differences. Even after these adjustments, your total test score provides a perfectly accurate estimate of your proficiency.

**What does “Not Answered” mean?**

Questions not answered include both skipped questions and questions not reached. The number of Correct, Incorrect, Not Reached, or Not Answered questions should not be compared between different test takers. The number of Correct, Incorrect, Not Reached, or Not Answered not only depends on the test taker’s ability but also depends on the difficulty of the questions.

**What do percentiles mean?**

SSAT percentiles have a range from 1 to 99, indicating that your scaled score was equal to or higher than the percentage of other test takers shown. If you are concerned that your percentile is lower than other scores, that may be because SSAT test takers are a small and highly competitive group of students who plan to go to the world’s best independent schools.
