

**Description**  
Castable Wax Resin captures precise details, and is perfect for making jewelry. A great material for investment casting, the Castable Wax Resin burns out cleanly without ash or residue being left behind.

**Uses**  
Investment Casting  
Jewelry Making  
Metal Prototyping

**Colors**  
●

	Metric	Imperial
<b>Tensile Properties</b>		
Ultimate Tensile Strength	11.6 MPa	1680 psi
Young's Modulus	220 MPa	32 ksi
Elongation at Break	13 %	13 %
<b>Burnout Properties</b>		
Temp @ 5% Mass Loss	249 °C	480 °F
Ash Content (TGA)	0.0 - 0.1%	0.0 - 0.1%
