

Cybersecurity

Protect your organization against malicious activity with technology solutions from leading providers purpose-built for your needs

Don't wait for a compromised network to wreak havoc on your business.

68% of business leaders feel their cybersecurity risks are increasing.¹ Between January 1, 2005, and May 31, 2020, there have been 11,762 recorded breaches.² And, as of 2020, the average cost of a data breach is \$3.86 million and the average time to identify a breach is 207 days.³

The stats go on and on. And, the number of ways nefarious actors cause issues within your environment are endless. From SPAM and Virus filtering to ID and password management, the entry points are endless. Are you prepared?

The Advantage team of security experts will help you understand your current threat profile and architect, source, and implement solutions that secure your IT infrastructure from a wide range of potential attacks. From threat detection and mitigation to secure VPN access, we design solutions that safeguard your data by keeping malicious viruses and attacks from ever reaching your infrastructure. Our team works with all of our security providers to continuously track evolving threats and provide up-to-date defenses, allowing you to focus on your core business.
