

# Ahhh for their eyes™

Nearly 2/3 of adults experience the painful symptoms of eye misalignment

Headaches

Eye strain

Neck & shoulder pain

Dizziness

Dry eye

Light sensitivity

Only 1/10 report their symptoms to their OD

Population Study 2019-2020 n=110,000

## neurolenses correct eye misalignment to restore naturally comfortable vision

Gap in alignment leads to symptoms in many patients

Contoured prism design provides more prism where it is needed most

# Wow for your independent practice

93%

of patients have responded positively to wearing neuroLenses after purchasing.\*

82%

of patients suffering from chronic daily headaches reported their symptoms were substantially reduced or “basically gone” after wearing neuroLenses for 90 days.\*\*

The neuroLens Measurement Device Gen 2 (nMD2)

Customized neuroLenses delivered under your care

“For patients who have demonstrated persistent and unresolved headaches, neck tension and eye strain due to eye misalignment, neuroLenses can provide substantial relief, and even elimination of symptoms. As we pivot our practices to emphasize the medical model, the neuroLenses system has been a tremendous solution for vision problems. It can have a dramatic effect on a practice’s bottom line from day one. The financial benefit is both direct – from the sale of neuroLenses – and indirect from the goodwill and marketing these lenses generate when patients tell their family members and friends.”

– Robert M. Allen, O.D.

\* Survey of 360 neuroLenses patients after 45 days of treatment. Data on file, NeuroLenses, Inc.

\*\* Miles, C, Krall, J, Thompson, V, Colvard, M. A New Treatment for Refractory Chronic Daily Headache. The study included 179 patients who suffered from chronic daily headaches, and was conducted from September 2012 to June 2013 by Neurology Associates, LLC, and the offices of Dr. Jeff Krall in Sioux Falls, South Dakota.
