Dear Valued Member,

California Regional MLS (CRMLS) would like to congratulate you! Your Association of REALTORS® has taken a crucial step in advancing your career and business opportunities by participating in CRMLS.

CRMLS is the nation's largest and most recognized MLS, servicing 100,000+ real estate professionals from 41 Associations, Boards, and MLS organizations. CRMLS data shares also provide access to an additional 45,000 agents, brokers, and appraisers.

For over 30 years CRMLS has thrived by focusing on the needs of our brokers, agents, and Associations. We are dedicated to providing you with unrivaled listing exposure through powerful and reliable MLS systems, superior data integrity and compliance tracking, and most of all, true representation within our organization.

We employ a host of experienced staff members local to the San Diego area specifically dedicated to providing you with training, support, and technical service. CRMLS makes outstanding customer service, career-building education opportunities, and full support of your Association's MLS platform our top priorities.

Please take time to read through our Welcome Packet to familiarize yourself with the full portfolio of valuable products and services available to you as a participating MLS member.

Wishing you great success,

What We Stand For

CRMLS Is...

Broker-centric

From our rules to our support to our product offerings, everything we do at CRMLS, we do for the **brokerage community**. We're here to help our participating brokers do business. That means dedicated broker resources, top-quality MLS technology, strategic initiatives to offer brokers better data access, and more. We won't forget who drives our MLS – we will give them the best service possible.

Comprehensive

There's a reason why we give our users more comprehensive **access to data** than any other MLS. At CRMLS, we believe there should be no artificial limitations regulating what you can see in your MLS system. The boundaries on data access are political, not technical. If your clients need high-quality information, you as a professional should be able to give it to them. We're here to help.

Progressive

The real estate landscape is always changing. We work every day to make sure we're **leading our industry** in the right direction. Thanks to our participation in local and national MLS movements, our investments in groundbreaking tech, and our frequent communication with real, on-the-ground real estate professionals, we stay on the cutting edge of what an MLS can be.

“ We work to provide you service based on our core values. They have taken us this far, and we're confident they will guide us to our end goal of statewide data access.”

— Art Carter, CEO, CRMLS

How to Avoid the Top MLS Violations

1. Branded Photos/Media and Copyright Issues – MLS Rule 11.5

Photos, virtual tours and any media submitted to the MLS must not contain any branding or promotional information related to the Listing Broker or Agent. The Listing Broker must also possess the proper written authorization to use media obtained from third parties including photographers. Google, Bing and other third-party websites do not provide sufficient written documentation that allow for the use of their media on the MLS.

2. Inaccurate Information & Auto Sold – MLS Rule 8.3

The Listing Broker represents that the information input into the MLS is accurate to the best of the Listing Broker's knowledge. The Listing Broker shall use good faith efforts to determine the accuracy of the information and shall not submit or input information which the Listing Broker knows to be inaccurate. This includes manually managing and maintaining listing status, updating all input fields and verifying closing information prior to changing the listing status to Sold. An Auto Sold violation occurs when a listing is automatically changed to a Sold status by the MLS system (noted with a red flag), which is a result of not manually updating a listing in the Pending/Backup status. Any listing information found to be inaccurate must be manually corrected within **2 business days**.

3. Exterior Photo Required – MLS Rule 11.5

Listings (other than Business Op) must include at least **1 photograph** that accurately depicts a substantial portion of the **exterior structure** of the property listed in the MLS. This exterior photograph must be uploaded within **2 calendar days** of the listing being entered into the MLS.

4. Misuse of Public Remarks – MLS Rule 12.5

The Property Description field should be used to describe the physical and aesthetic characteristics of the property only. Any reference to the Listing Broker/Brokerage or Agent, open house information, showing instructions and occupancy status is prohibited.
