Therapy Watch: Research Executive

Research Partnership is the largest independent healthcare market research and consulting agency in the world. We are looking for a bright, dynamic Research Executive with a background in syndicated Quantitative research to join our fast growing team in Fulham, London.

The Research Executive role we are looking to hire is an important role within our business. It sits within our specialist syndicated research team, Therapy Watch. You will deliver a range of syndicated studies, developing your expertise in a specific therapy area, while supporting more senior researchers to deliver expert analysis and presentations to clients.

Established over 10 years ago, Therapy Watch is a 'real-time' syndicated market tracking tool that provides market researchers, marketing teams and brand managers with strategic and tactical market information using patient record forms (PRF).

As a Therapy Watch Research Executive you are expected to be able to proactively manage analysis requirements with support from the Senior Research Executive and Research Manager.

Responsibilities:

Analysis

- Confidence with scripting and coding in Conformat with less input from Conformat champion
- Creating Tab specs, working with RM and Disease Hero for reference rather than detailed technical guidance
