

Employment opportunity

Research Manager, Singapore

Your skills and experience

At least 4 years of experience in market research with healthcare experience (or experience in other research sectors). Appreciation of marketing / client side issues. Self-motivated and able to work independently. Good communication skills – both verbal and written. Ability to multi task under pressure and to tight deadlines.

Your primary role

Your responsibilities will include managing 2 to 3 projects at a time to meet objectives, whilst being an important point of contact for the clients. You will prepare and present the majority of client presentations. You will support senior management in training and management of junior staff. You will also help write proposals brought in by the directors and implement the project that you will then run on a daily basis.

Further information

Research Partnership is a growing company that offers the opportunity to work in a fast-paced and fun environment. All our work is international in nature and there are extensive opportunities to travel within Asia or even further to Europe, the US. We will provide you with extensive structured and hands-on training in order for you to develop and build your career as a pharmaceutical market researcher. We offer a non-bureaucratic, friendly working environment where employee performance is recognised and rewarded.

About Research Partnership

We are the largest independent healthcare market research and consulting agency in the world. Trusted partner to the global pharmaceutical industry, we use our expertise and experience to deliver intelligent, tailor-made solutions.
