**8 000** employees worldwide

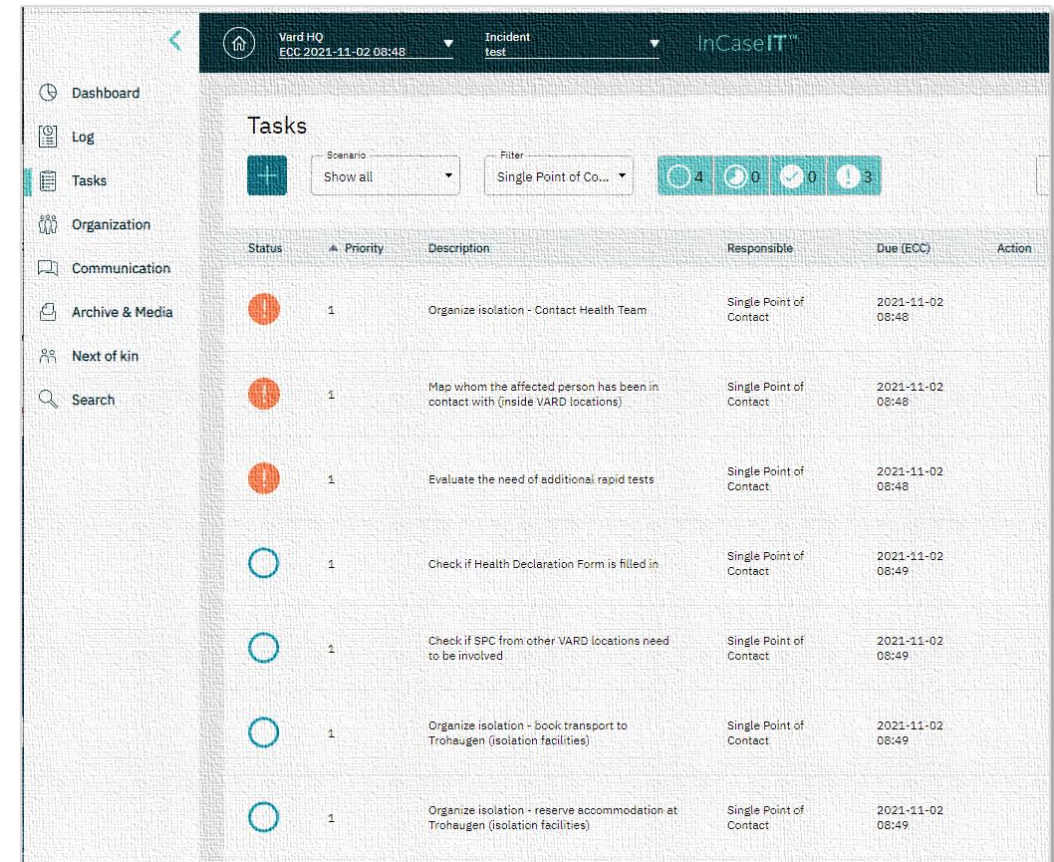

Headquartered in Ålesund, Norway

# InCaseIT at VARD – most used features

VARD uses mainly 4 emergency scenarios:

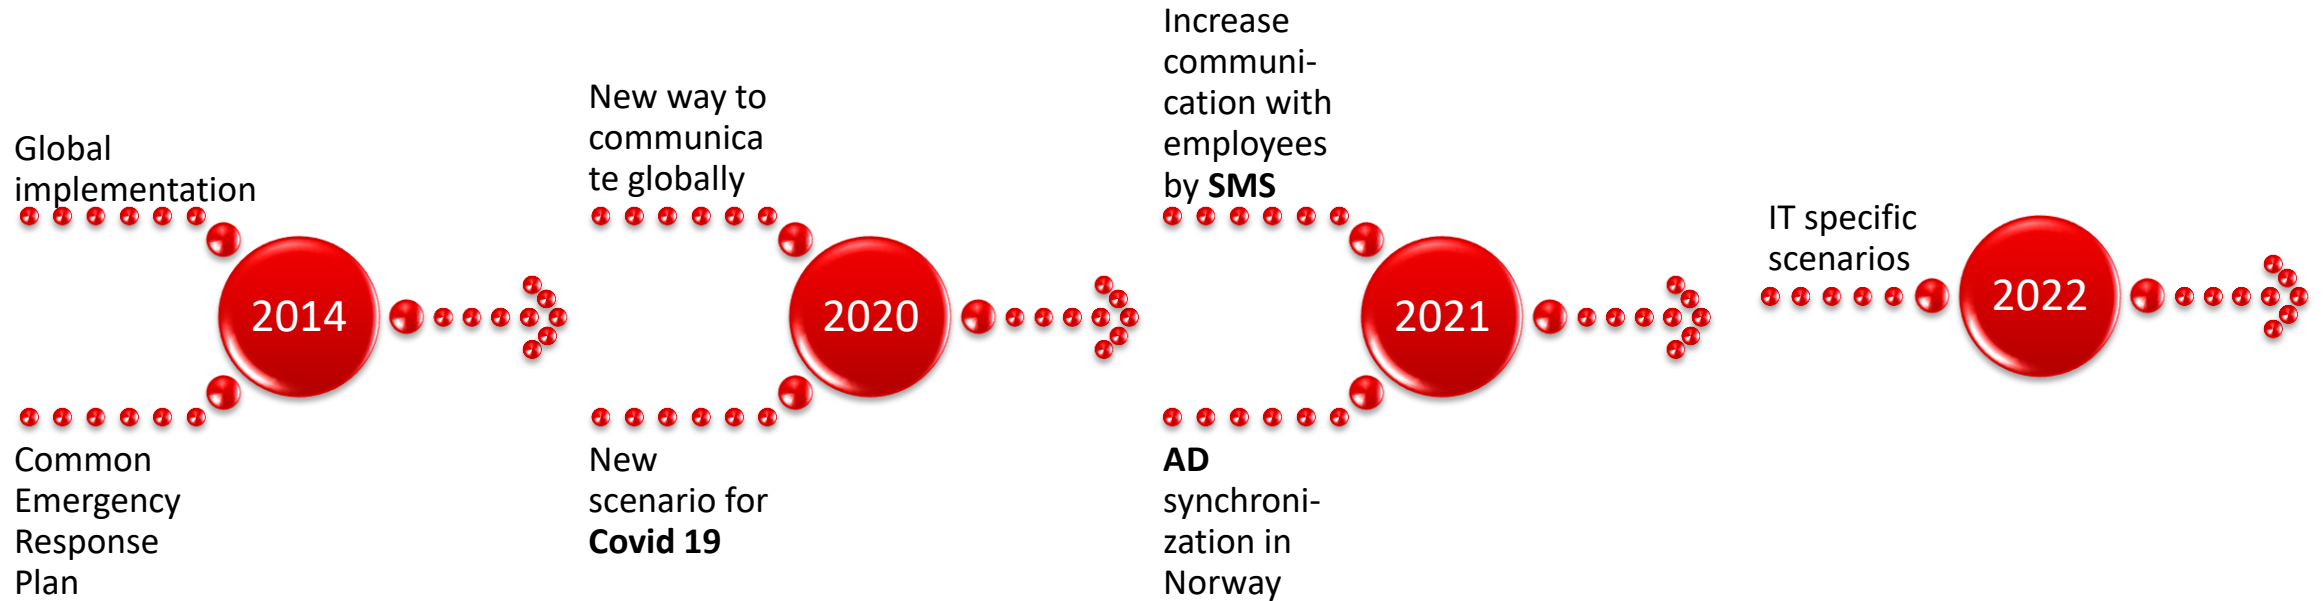

- Accident at yard  
(control media and inform stakeholders)
- Accident on ship  
(control media and inform stakeholders)
- Expat or employee on travel  
(NOK, Go Team, osv)
- Covid 19 case  
(constant preparedness, immediate communication) 

The screenshot shows the InCaseIT interface for an incident at Vard HQ. The top navigation bar includes 'Vard HQ', 'ECC 2021-11-02 08:48', 'Incident test', and 'InCaseIT™'. A sidebar on the left lists navigation options: Dashboard, Log, Tasks, Organization, Communication, Archive & Media, Next of kin, and Search. The main area displays a 'Tasks' section with a filter set to 'Single Point of Co...' and a status summary showing 4 tasks, 0 completed, 0 checked, and 3 with warnings. Below this is a table of tasks:

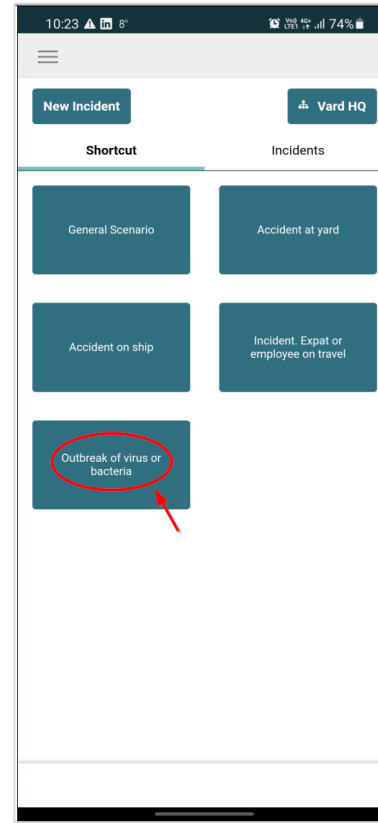

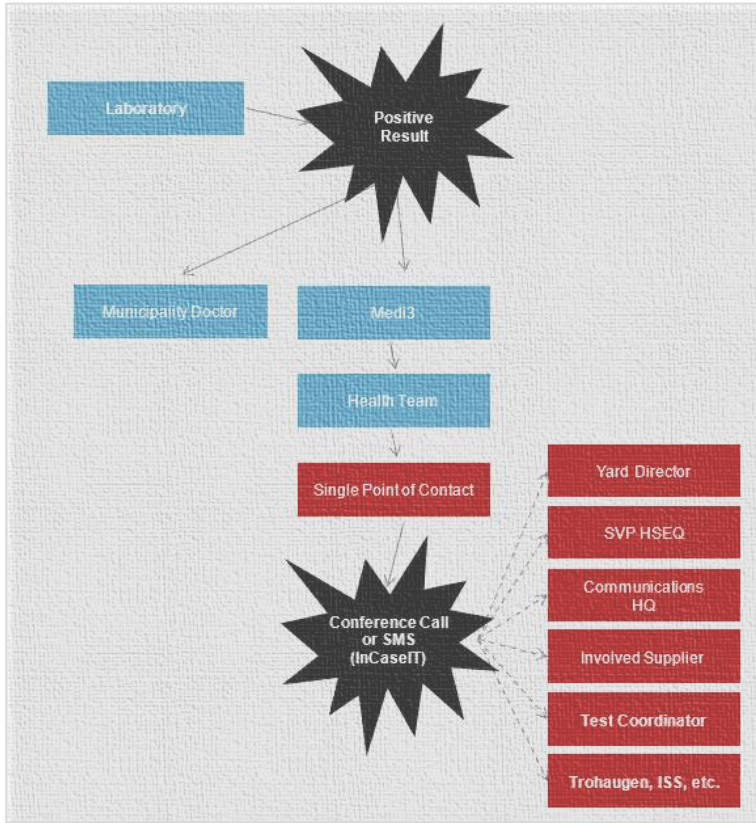

Status	Priority	Description	Responsible	Due (ECC)	Action
	1	Organize isolation - Contact Health Team	Single Point of Contact	2021-11-02 08:48	
	1	Map whom the affected person has been in contact with (inside VARD locations)	Single Point of Contact	2021-11-02 08:48	
	1	Evaluate the need of additional rapid tests	Single Point of Contact	2021-11-02 08:48	
	1	Check if Health Declaration Form is filled in	Single Point of Contact	2021-11-02 08:49	
	1	Check if SPC from other VARD locations need to be involved	Single Point of Contact	2021-11-02 08:49	
	1	Organize isolation - book transport to Trohaugen (isolation facilities)	Single Point of Contact	2021-11-02 08:49	
	1	Organize isolation - reserve accommodation at Trohaugen (isolation facilities)	Single Point of Contact	2021-11-02 08:49	

# Timeline – company’s experience

*InCaseIT is the unique system not connected to our IT servers that is used by all yards and business units*

# Covid 19 – learning by doing

- New role: Single Point of Contact (SPC)
- Less tasks
- Notification and traceability **asap**
- Conf calls outside work hours and with external partners
- Repetitive tasks
