The following limitations and restrictions have been identified during final testing prior to release

JT to 3DPDF

Ref ID Limitations and Restrictions

1	A current limitation of the .msi installation method is that the software cannot be installed directly on to external based mapped or network drives from a client machine. For guidance on how to do this, please find the documentation here
2	PMI Flipping: PDF does not support flipped PMI
3	PDF Default View: If a default view is set within the CAD then the <i>Shaded</i> render mode is not supported when the PDF opens.
4	When using the new feature for Korean text support, it may be necessary to change the machine language to Korean when using the %TS_KOREAN% variable.
