

SESSION PREP LIST:

You must put on your cloth face mask before entering the intervention setting and coming into contact with your client or their family members.

Conduct a self and family fitness for service screening and document this in your daily fitness for service appointment.

Wash hands at the start and end of each session.

Use wipes to disinfect stimuli (e.g., toys, materials, iPad) and surfaces in your work area before and after each session.

Avoid unnecessary physical contact/closeness with clients (e.g. tickles, hugs, high fives, shaking hands)

Stay current on all STAR of CA notices provided to clients.
