

# TURNKEY AND RETROFIT SERVICES

Seamless Integration from Plant  
Intake to Tertiary Treatment

## **SINGLE SOURCE RESPONSIBILITY THAT PROVIDES PEACE OF MIND**

**Come to WesTech for complete turnkey services, including:**

- Equipment
- Installation
- Delivery
- Maintenance and inspection
- Supervision by expert technicians
- Service contacts

Consider retrofit equipment that can restore performance strength to worn out units and add years to your equipment's service.

**Examine the cost: You save more money by rebuilding your existing equipment than by buying new. Let WesTech help you do it. As an industry leader, especially in drive replacement, we can retrofit any brand of clarifier or thickener.**

# WHY CHOOSE WESTECH?

Single point of responsibility

Licensed in-house process, civil, and mechanical engineers

In-house industrial construction professionals

Full document-control capabilities

Domestic and international expertise

Custom system design and integration

Quality equipment with long life cycles

Superior service from concept, to start-up, and well after the project is complete

Electrical and piping design

Process consultation, including laboratory bench-scale, field, and pilot testing

## Our Retrofit Equipment Will:

- Restore performance strength to units that have worn out
- Extend service for years and retrofit many types of equipment, such as:
  - Water and wastewater plants
  - Package plants
  - Filters
  - Media

**Contact WesTech to help you get the most out of your equipment.**
