

# A Public Safety Workforce Management Platform

Easy-to-use products that resolve your agency's most pressing needs.

## Protect Your Agency

Manage, maintain, and prove staff and agency-wide compliance with a few clicks of a button.

## Operate with Excellence

Automate manual workflows and paper-based processes that waste time and frustrate staff.

## Build Public Trust

Increase transparency and citizen communication without adding to staff workload.

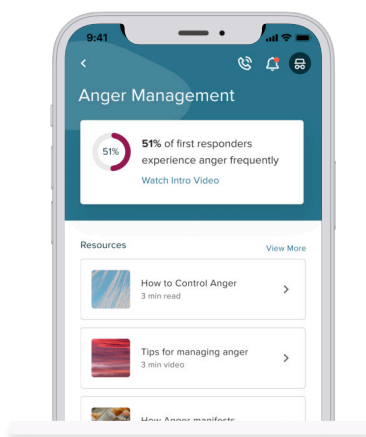

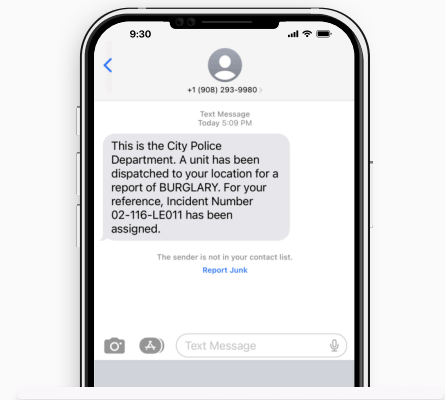

## Improve Department Health

Create a culture of health and wellness to address burnout, morale, and retention.

## Engage

### Citizen engagement and feedback

- **Keep citizens informed** with automated text updates
- **Boost staff morale** with positive feedback
- **Measure citizen satisfaction** with objective data

## Line

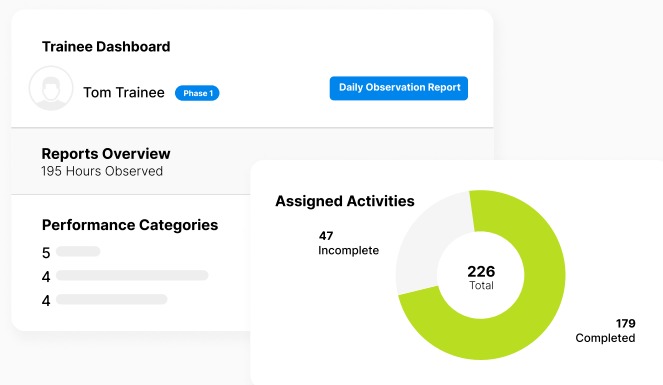

### Comprehensive wellness app

- **Improve responder wellbeing** with anonymous support
- **Enhance your wellness program** with resources available anytime, anywhere
- **Empower your department** with anonymized data on the agency's top wellness needs

## On-the-job training management

- **Streamline training** with direct integration to PowerPolicy
- **Increase visibility** into your new role training with real-time dashboards
- **Enhance your programs** with robust data and reports on every area of training

## Public safety scheduling

- **Keep responders informed** with automated reminders of schedule changes
- **Reduce scheduling errors** by seeing minimum staffing violations in advance
- **Stop wasting time** on manual scheduling tasks and tracking forms

## Policy and procedure management

- **Access mission-critical documents** from any device
- **Hold staff accountable** to policies with digital signatures and time & date stamps
- **Know how a document has changed**, when, and by whom with the click of a button

## Accreditation management

- **Be onsite ready** in half the time when compared to paper
- **Get alerted** if a policy or standard changes
- **Stay on track** with task management, bulk actions, and more
