Stage - The Stage area is where we will be having opening and closing remarks and where the Showcase winner will be announced and speak.

3. Expo - The Expo area is the virtual exhibitor hall where each Showcase company will have a booth where they will be demonstrating their product and connecting with you and other booth visitors. You will be able to hop in and out of the booths to watch the demos and interact with the teams. As a booth visitor, you will be able to request to share your audio and video if you'd like to chat with the founders and other folks in the booth face-to-face. If you don't want to turn on your screen, you can type your questions or comments to the founders in the booth chat. The Expo is the place to be during Showcase!

4. Networking - The Networking area is the place where you can meet one-on-one for 5 minute speed networking with other attendees. While networking, you can exchange "business cards" amongst other attendees and all connection information will be saved on your Hopin account to reference after the event.
