EMERGENCY

COLLEGE SECURITY
& LIFE SAFETY
COMMUNICATIONS SOLUTIONS

TALKAPHONE
OFFERS MORE THAN
INNOVATIVE CAMPUS
SAFETY SOLUTIONS.
WE PROVIDE PEACE OF MIND.

SAFETY FOR YOUR INSTITUTION
INSIDE AND OUT

WHEN IT COMES TO COLLEGE FACILITIES AND CAMPUSES, NOTHING IS MORE IMPORTANT THAN THE SAFETY OF YOUR STUDENTS, FACULTY AND STAFF. COLLEGES TODAY FACE A HOST OF POTENTIAL EMERGENCY AND CRISIS SITUATIONS THAT GO FAR BEYOND THE STANDARD FIRE DRILL. TRADITIONAL NOTIFICATION MEASURES, SUCH AS PUBLIC ADDRESS SYSTEMS, ARE NOT ENOUGH. TALKAPHONE CAN HELP.

From classrooms to dorm rooms, Talkaphone offers powerful instant two-way emergency communication, area lighting, gate access, paging and video surveillance options that your school needs to be safer and stay better connected.

Our best practices cloud-based Software as a Service mass notification solution is reliable and scalable enough to send thousands of notifications to individual cell phones and audio broadcasts to classrooms, offices, buildings, outdoor areas and entire districts anywhere around the world almost instantaneously.

Together, we can help protect the safety of students, faculty, staff and visitors at your campus — all while providing the peace of mind that comes from working with the experts in security and life safety communications.

That's the Talkaphone difference.

COMMITTED TO QUALITY
CONNECTED FOR SAFETY

COLLEGE CAMPUSES, WHETHER LOCATED IN THE MIDST OF LARGE METROPOLITAN AREAS OR SMALLER RURAL REGIONS, CAN COUNT ON TALKAPHONE FOR SOLUTIONS THAT EFFECTIVELY BUILD SAFER AND MORE SECURE ENVIRONMENTS.

DORMITORIES

- Area of Refuge (AOR) system allows students seeking shelter to communicate with rescue personnel during emergencies
- Enable elevator passengers to receive assistance during elevator malfunctions and/or emergencies
- Provide intelligible audio paging and emergency communications to students/faculty during crisis situations

TALKAPHONE SOLUTIONS:
(4) Elevator Phone
(5) VoIP Emergency Phone
(6) WEBS® Tower with Area Lighting Platform
(8) Area of Refuge system

EMERGENCY COMMUNICATIONS & MASS NOTIFICATION

PAGING

1 WEBS CONTACT PLUS™
`A` `B` `C` `D`

- With a single action, send messages to student and faculty cell phones and to WEBS®-enabled audio and visual devices located throughout campus
- Best practices cloud-based Software as a Service solution that is reliable and scalable enough to send thousands of notifications around the world almost instantaneously
- Select areas to page using the optional Geographical Information Services
- Use existing message templates or create new notifications and recipient groups in seconds
- Notify recipients by cell, landline, SMS, email, pager, BlackBerry PIN-to-PIN messaging, fax, TTY, VOIP-500 Series IP Call Stations, WEBS®-enabled devices and digital signage
- Create cascade notifications that automate follow-up notifications based on recipient responses
- Allow emergency responders to join a conference call by simply pressing a key on their phones

2 WEBS® COMMUNICATIONS MODULE
`C`

- Enables audio broadcasts via WEBS Contact Plus™ mass notification system
- Existing intercom speakers can be combined into paging groups

PAGING AND TWO-WAY COMMUNICATIONS

3 WEBS® WALL-MOUNTED CALL BOX
`A`

- Bright blue beacon visible from great distances
- Instant two-way hands-free communication
- Flashing blue light signals emergency events
- Broadcasts audio messages at high volumes
- Extremely durable and vandal resistant

4 ELEVATOR PHONES (NOT PICTURED)
`D`

- Push button once to call, then speak hands-free
- LED indicator for hearing impaired
- Auto-answer allows security to monitor and initiate calls to Emergency Phone
- Phone line powered: no power supply or battery back-up needed

5 VoIP EMERGENCY PHONE
`C` `D`

- Hands-free communication at the push of a button
- Silent monitoring capabilities
- Audio paging provides full classroom coverage
- One button, two-button, keypad, handset and other options

6 WEBS® TOWER WITH AREA LIGHTING PLATFORM
`A` `C` `D`

- Broadcasts audio over wide areas
- Local microphone provides crowd control capabilities
- Flashing blue light signals emergency events
- Instant two-way hands-free communication
- Optimized LED technology for video surveillance
- Optional 360-degree camera for greater situational awareness
- Extremely durable, vandal resistant and highly visible

TWO-WAY COMMUNICATIONS

7 GATE ENTRY PEDESTAL WITH CALL BOX AND CARD READER
`A`

- Instant hands-free communication at the push of a button
- Ideal for drive-up applications
- Designed for virtually all card readers; ties into gate control
- Visual verification with optional built-in surveillance camera

8 AREA OF REFUGE SYSTEM
`D`

- AOR system is fully compliant with IBC §1007, ADAG §7, ICC A117.1 and NFPA 72 §24.5.3
- AOR Command Unit, AOR phones and AOR signage available
- AOR phones are powered by the Command Unit (battery back-up included)
- Emergency call activates siren and strobe at the Command Unit
- Queued calls are identified as flashing red lights on the Command Unit
- Unanswered call rolls over to the Telco line
