# CAN YOU HACK THE MUNICIPALITY OF THE HAGUE?

## PARTICIPATE HÂCK THE HAGUE 2021: ONLINE EDITION

On Monday 27 September from 10.00 - 17.30 CEST, the municipality of The Hague and cyber security company Cybersprint organize the 4th edition of hacking competition Hâck The Hague. 200 professional and student hackers will get the opportunity to hack the live IT systems and websites of the municipality of The Hague and its suppliers to put their digital security to the test.

### HTH is a great opportunity to

- // Hack complex, live production applications and systems
- // Compete with other participants to test your knowledge and skills
- // Network with fellow students, professional hackers and members of the Hâck The Hague team
- // Boost your future career: participation in Hâck The Hague looks good on your CV! Winning students will receive a cash prize and a recommendation letter signed by our renowned jury.

### Students and professionals

You don't have to be an experienced hacker in order to be successful at Hâck The Hague. Every hacker has a different way of looking at things and find vulnerabilities that others overlook. No one is expert in all tools and techniques but everyone has their own strength and expertise.

We share tips and tools with the Hâck The Hague community on a regular basis, so make sure to follow us on [Twitter](#), [LinkedIn](#), [Facebook](#) and [YouTube](#).

### How can you participate

You can participate on an individual basis or with a team of up to 4 people. Apply for one of the available seats by registering as potential participant with the teacher of the relevant programs of your school. The teacher will select the best candidates to receive the guaranteed places. Selection can be based on obtained certificates, specific skills, past participation in similar events and, of course, the enthusiasm to participate! Were you selected by your teacher for one of the guaranteed places in the hackathon? [Register here](#). If not, you can still register for the event. A selection of students that were not selected by the school(s) will be invited to join the competition.

More information on Hâck The Hague can be found [on the website](#). We are looking forward to seeing you online on 27 September!

“My participation in Hâck The Hague plus winning one of the available awards directly contributed to the fact that I was able to secure a job as professional hacker.”

*Michael de Klein*  
Ethical hacker, Computest
