

Over the past year, we've become your preferred Onboard partner. See what makes the HR Cloud experience stand out from the rest.

Simple, Automated Onboarding

Mobile Compliance

iOS and Android compatibility allows onboardees to complete paperwork the moment they're hired.

Checklist Builder

Customized position-specific task workflows improve your bottom line by reducing wasted time and resources.

Employee Self-Service Portal

Branded Hub

Greet your new hires with an engaging, eye-catching portal that helps them transition to the company.

Monitor Progress

Save time and sanity by managing task reminders and following up with employees in-app.

Forms for Any Occasion

DIY Paperwork

Eliminate frustrating paper hassles with a simple drag-and-drop form builder and uploaded PDFs.

Document Security

Personalized access settings add extra authentication alongside custom roles and granular permissions.

How It Works

- Our integration allows for a new worker profile to be created in ADP from HR Cloud.
 - Data updates including status changes, promotions and PII are pushed bi-laterally.
- Move candidates directly from any ATS into HR Cloud's Onboard.
 - Use the Recruit ATS, ADP's Recruitment Module, Greenhouse, Compas or any other favorite ATS to seamlessly Onboard new hires. Additionally, developers can easily build a custom integration with our open API.
- Documents stored in HR Cloud are directly shared to ADP WFN and Vantage.
 - Direct deposit, W4s and I9s, benefits info and much more!

Our ADP customers know that we're problem solvers. Here are some common competitor issues that we've addressed.

Common Software Issues

Our Solutions

- | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> • Long, dragging installation process and frequent mandatory software updates • Slow and hypercomplicated user interface that turns off candidates and new hires | <ul style="list-style-type: none"> • Easy one-time setup leads to complete automation • Colorful, quick and eye-catching with multiple opportunities for custom branding |
| <ul style="list-style-type: none"> • Compliance doesn't extend to global locations leading to multi-platform dis-orientation • Document storage vulnerable to privacy and security breaches | <ul style="list-style-type: none"> • Compliance is global with in-app International Custom Forms, as well as readymade local and state forms • Qualified with data privacy standards, including SOC-2, Privacy Shield, GDPR |
| <ul style="list-style-type: none"> • Inconsistent orientation methods leave muddled understanding of company structures, while offboarding capability is either difficult or nonexistent • Closed API leads to double data entry across multiple platforms | <ul style="list-style-type: none"> • Onboard module comes bundled with Offboard including Org Chart, a graphic structural overview to create direction and engagement • Open API allows custom-built integrations with preferred solutions and many of the industry's biggest names |

How has HR Cloud made onboarding easier for you and your company?

“ Prior to HR Cloud, we would send new hires a USB in the mail that contained all new hire paperwork. We ran into many issues. [HR Cloud] has saved so much time and wasted paper. Our new hires always mention what an easy process it was to access the portal and get all paperwork completed. Not only that, but the platform has made it much easier to provide information on our company – we have everything on our home page (our benefits guide, first day expectations, etc). **We love HR Cloud!** ”

- Caitlyn Wagoner, HR Coordinator, PENTAX Medical & ADP Customer
