

Anderson Welder/Generator

Code G1275N

The Anderson welder/generator has been designed to perform. The direct injection diesel engine only sips on fuel giving savings with every tankful of diesel.

The Anderson Equipment manufacturer has gained worldwide certificates including; TUV & GS in Germany, EPA in USA, CSA & CTL in Canada & CE in Europe.

- Long life NTN bearings
- Genuine Bosch injectors
- Hour meter - ideal for recording service intervals etc
- A single tank of fuel will last 8-13hours
- Efficient air filtration system
- Steel liner bore
- Electric start including battery
- Automatic decompressor
- Low oil cutout
- Large muffler for reduced noise
- Includes 4mtr Heavy Duty lead set
- Wheel Kit
- 12.5ltr Fuel Tank Capacity
- 1 Year Warranty

Engine	Anderson diesel
HP	10HP
Starting	Electric & recoil (battery incl)
Low oil cutout	Yes
Max output power	4.2kw(5kva)
Welding amps max	190A
Duty cycle	50% @ 190 amps
Dimensions	740mm x 475mm x 590mm
Weight	110KG
