The new CutSkill 35A Plasma Cutting System is designed specifically for the handyman/tradesman that requires high quality cutting performance at an affordable price. This single phase inverter based power source can easily and accurately cut through a range of materials including mild/stainless steel and aluminium. It is ideal for applications including car panels, light maintenance/ fabrication and for use in the home workshop.

Machine Specifications

Input Voltage	240 Volts, +/- 15%
Input Frequency	50 Hz
Generator requirement	10 kVA
Output range	15 – 35 amps
Rated Output @ Duty Cycle	35A @ 30% Duty Cycle
Dimensions (HxWxD)	280H x 133W x 419D mm
Weight (Power Source)	11.8 kg
