

Helvi PC 33 - 10mm Cutting - European Made

PLASMA CUTTING - 1PH, 230V, 10:30 Amp.

code: 99830024

ENG - The Plasma, based on Inverter technology, guarantees accurate and clean plasma cut up to 15mm thickness. Easy to handle and operate, this system is suitable for cutting thin materials at high speed. The front panel is provided with clear and simple graphics for the adjustment of the cutting current and to indicate the intervention of any of the internal safety devices. Extra operator protection is provided by a special Start system. It is well suited for auto body repair shops, air conditioning systems and general plate working.
