

# STRATA CXM315PRO

- COMPACT INVERTER MIG / MMA WELDER **315A**

The CXM315 PRO is one of the Inverter Technology Mig Welder Series offering exceptional results in mild steel, stainless steel and aluminium welding.

The amazing portability and features makes it ideal for contractors, rural maintenance and automotive applications.

- Three phase, 400V input power
- 60% at 315A duty cycle
- Gas / gasless, MMA (Arc Welding)
- Digital voltage and amperage display
- Fully variable voltage and wire speed controls
- Takes full size 15kg wire spools
- Supplied complete with heated CO<sup>2</sup> regulator, MB36 4m MIG torch and spool cover.
