

Aboveground Used Oil Storage Systems

AGS-180D, AGS-245D, AGS-285D & AGS-500D

NOTABLE FEATURES

- UL Listed double-wall tank provides 110% secondary containment
- Meets UL 142 specifications and requirements of Uniform Fire Code and NFPA 30
- Workbench-style tanks in 180-, 285- and 500-gallon capacities
- Vertical-style tank in 245-gallon capacity
- UL Listed 1" air-operated diaphragm pump with 30 gpm capacity
- Automatic pump shut-off to prevent overfilling
- 3/4" x 10' suction hose with quick connect coupler
- 2" drop tube with camlock fitting and dust cover
- Air filter/regulator
- Easy-to-read level gauge
- Protective cover for pump and shut-off valve

Used oil evacuation, storage and transfer is safer, cleaner and faster with a pump-assist system. Ideal for new car dealers, tire and automotive service stores and dealers, heavy-duty fleet owners and operators and municipal garages.
