

17-Gallon Poly Low-Profile Oil Drain JDI-17PLP

NOTABLE FEATURES

- 7-3/4" ground clearance
- Reinforced ribbing provides added support
- 4" caster design provides superior stability and mobility
- Recessed drain valve for optimal protection

Designed for use with heavy-duty trucks, buses, RVs and other heavy-duty equipment. Ideal for use with oil and engine coolants. Use with a pump-assist evacuation system or optional 110V electric pump. This high-impact polyethylene tank is strong and durable, dent resistant and lightweight for easy handling.

17-Gallon Poly Low-Profile with 110V Electric Pump Oil Drain JDI-17DPLP

This drain comes with the same features as the JDI-17PLP with the addition of the JDI-17PK Fluid Transfer Pump Kit.
