Dynamic DVT-PRO Sensor with Dual Valve Technology

One (1) DVT-PRO sensor is designed to be programmed with several TPMS Tools including ATEQ, Snap-on and Dynamic DY-46 & DY-47. Dynamic DVT-PRO sensor comes with our 6-207A rubber valve and has "Dual Valve Technology" (DVT). The valve stems can easily be replaced with other Dynamic valve options shown below using the same sensor housing.

Features include:

- Single Sensor Program - easy to manage and lower inventory investment
- Industry Leading Vehicle Coverage - Domestic, European and Asian vehicles including wireless auto locate and hi-line/low-line protocols
- Fast Wireless Programming - no pad or cradles needed to program the sensors
- Copy/Clone Capability - copy ID from old sensor and program the new sensor with same ID number
- Through the Tire Programming - eliminates need to breakdown tire and wheel to reprogram
- Future Software Updates - new vehicle protocols can be added with a simple tool software update
- Dual Valve Technology - easy interchange between rubber or metal valve options
- Online Data - Lookup application data available on Epicor, WHI, Wrench Head, ShowMeTheParts & MAM
