

Connecting the Next Generation to Advanced Manufacturing

ARE YOU A CANADIAN MANUFACTURER?

Hire post-secondary students and receive up to \$7500 in funding per placement!

WHAT IS WIL?

EMC is a preferred partner for the Government of Canada to deliver the Student Work Placement Program (SWPP) to Canada's manufacturing and related sectors (e.g. North American Industry Classification codes 31-33). EMC is working in partnership with the SWPP team to achieve Canada's Work Integrated Learning (WIL) Strategy, which is meant to drive systemic change in the skills development system by EMC working with post-secondary institution partners to effectively align 'work-ready' skills of students with the skills required by Canada's manufacturers.

HOW TO APPLY:

Contact us directly for more information on how to participate in this program or visit our website to learn more;
