

# Dilution Control: Putting Safety First

*close looped systems =*  
**lower risk of chemical exposure**

*patented Spill-Tite™/MC design =*  
**no leaking or spills**

SmartDose™/MC

*backflow prevention eductors =*  
**reliability and comfort**

Designed with safety in mind, Diversey's dilution control systems reduce the risk of hazardous chemical incidents and promotes a safe & healthy work environment.

*numbered and color coded labels =*  
**reduction in end-user misuse/error**

Dilution control eliminates manual mixes which lowers chemical exposure.

Contact your diversey representative today for more information on how you can improve safety in your workplace with Diversey dilution control.
