

The Depos From a Distance™ Difference.

Depos From a Distance™ is our signature videoconferencing platform that's built *specifically* for remote depositions. It combines state-of-the-art videoconferencing with seamless exhibit handling, along with numerous details that are made to meet specific legal needs.

zoom

✓ Built <i>specifically</i> for remote depositions	✗ Built for videoconferences, not customized for any one type
✓ Completely web-based; no downloads necessary; simple one-button entry	✗ Requires participants to download software on their device
✓ Each participant can customize their own video layout; key participants can be prioritized	✗ Video layout is determined automatically and doesn't prioritize specific participants
✓ Exhibits are seamlessly shared, opened, viewed, and numbered directly within the platform	✗ Exhibits have to be opened and viewed outside of the platform
✓ Exhibits can be annotated, and files are automatically saved and marked as a new exhibit	✗ Exhibits can be annotated, but annotated files can't be easily used
✓ White glove technical support is available to troubleshoot before and during every deposition	✗ No real-time technical support

And all this is available along with our unbeatable non-recourse deferred financing option, DisbursePay. So you can revolutionize the way you do depositions without paying anything up front.

Don't wait. It's time to do your depositions differently. Click [here](#) to schedule a private demo with one of our Steno Ambassadors. Or, if you are ready to book a deposition, email us at concierge@steno.com and we'll take it from there.
