

Rhode Island Wellness Housing Program

Did a member of your household test positive for COVID-19?

You may qualify to stay in a hotel, free of charge, for up to 10 days if you are unable to avoid close contact with the household member with COVID-19.

Call 211 and press option 6 for more information.

COVID-19 is extremely contagious, meaning that it can be easily transmitted between those who live in the same household. If someone in your household tested positive for COVID-19, it is very important they don't come into close contact with others, including people they live with.
