

# ProPlay®

by Schmitz Foam Products

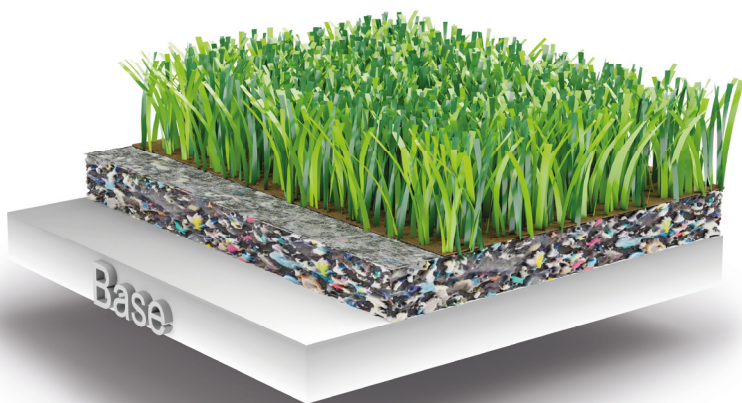

## A SHOCK PAD THAT HAS IT ALL

ProPlay delivers the superior performance you would expect from the world's leading shock pad. ProPlay will improve the performance of any turf system to help deliver the optimal balance between solid footing (vertical deformation), comfort (shock absorption) and player safety (impact attenuation).

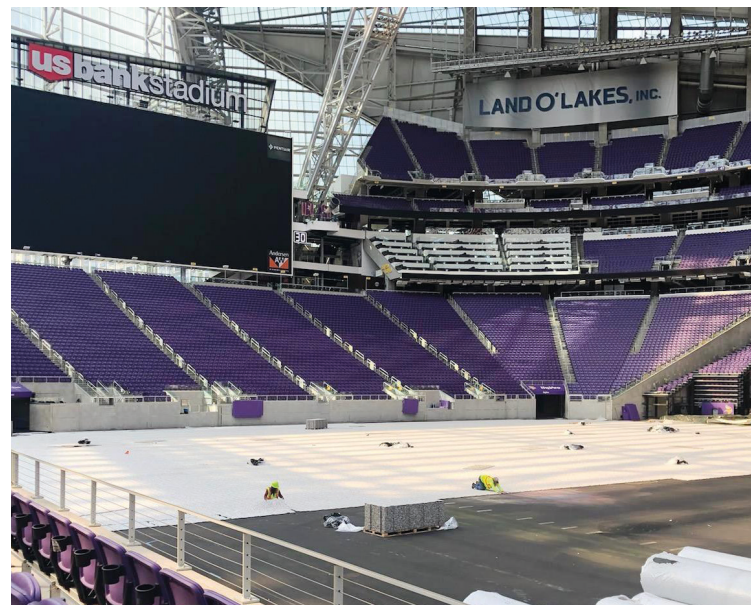

ProPlay shock pad is renowned for its ability to provide the ultimate combination of performance attributes with the added advantage of superior drainage.

ProPlay has consistently proven to be the ultimate value in shock pads worldwide.

### PROPLAY ADVANTAGES AT A GLANCE

1. Fast and easy installation under all weather conditions
2. 25 year warranty - best in the business
3. ProPlay can be reused or recycled at end of life of the field
4. Systems tested with major synthetic turf producers
5. In addition to the unequalled vertical drainage properties, ProPlay also offers several products that provide outstanding lateral drainage.
6. Certified according to ASTM F1936 and F355-A/FIFA / FIH / World Rugby etc.

# WE ARE SCHMITZ FOAM PRODUCTS WE ARE PROPLAY

Schmitz Foam Products is a fourth generation family owned business that was established in 1935 in the Netherlands. Foam has always played an important role in our business. Due to its growing success worldwide, a US plant opened in 2017.

The first ProPlay was produced in the early 90s. It is the only shock pad that combines top-performance with superior drainage capability. The key focus of Schmitz Foam Products is combining sports performance and player safety for artificial grass systems.

## FOAM REMNANTS GET A PURPOSE

## MADE FROM TOP-QUALITY FOAM

ProPlay is made of closed-cell crosslinked polyethylene foams (XLPE) collected from a variety of industries where quality and product performance is key, including medical, packaging and automotive.

Schmitz Foam Products uses their extensive experience with foam, along with stringent quality control and production methods to produce a shock pad with the ultimate in performance, player safety, and drainage that the turf industry demands.

## APPROVED ACCORDING TO INTERNATIONAL STANDARDS

Besides our stringent internal processes our products' quality is also ISO 9001 certified and approved by a number of national and international standards.

- ASTM F1936/F355-A
- STC Performance and Durability Guidelines for Shock Pads
- FIFA Certified
- FIH
- World Rugby

## THE MOST SUSTAINABLE SHOCK PAD AVAILABLE

From its beginning as a recycled product, to its handling at end of life of the field, Schmitz Foam is dedicated to reducing waste wherever possible.

At the end of life of the field, ProPlay can be repurposed for use on another area or a different application, or returned to Schmitz Foam Products to be recycled for use in a new pad.
