# Compounded Preparations Guide

A photograph of a woman with long brown hair lying on a hospital bed, smiling. A brown dog with a red collar is lying on the bed next to her. The background is a soft-focus hospital room.

*Fiona, Daughter of Danielle,  
Aseptic Supervisor, with Sammi  
15 Years of Service*

# Proudly serving patients & practices for 40 years.

Our Vision: We are passionate about improving the lives of animals and those who love them.

1980

Wedgewood Pharmacy was **established**.

**1981** George and Lucy Malmberg purchased a 10,000 sq. ft. pharmacy in Sewell, NJ.

1990

**Transitioned to specialty pharmacy** with a focus on compounded medications.

**1991** Began compounding animal health preparations, with a focus on **equine** medicine.

1999

Added **companion animal** medications to our formulary.

2003

Moved into a 40,000 sq. ft. facility in **Swedesboro, NJ**.

2007

Made history as the first animal health pharmacy to create **unique, pet-friendly tablets** and transdermal medications: *Gourmeds<sup>®</sup>, Tiny Tabs<sup>®</sup> and Twist-a-Dose<sup>®</sup>*

2012

The **first veterinary pharmacy to become PCAB Accredited<sup>®</sup>** for both sterile and non-sterile compounded medications.

Created a **digital ordering platform** to streamline our ordering process.

2014

**Defended veterinarians' access to compounded medications** by partnering with Diamondback Drugs, Veterinary Medical Associations and others.

2018

**Merged with Diamondback Drugs** to become the most accessible veterinary compounding pharmacy in the nation.

- 20 Territory Managers
- 27 Inside Account Managers
- Over 40,000 preparations

2019

**Expanded to over 100,000 sq feet**, completed the Diamondback Drugs transition and established two centers of excellence to best serve our clients.

- Swedesboro, NJ
- Scottsdale, AZ

2020

**What's Next?**

Expanded service offerings like **RACE<sup>®</sup>-approved** continuing education.

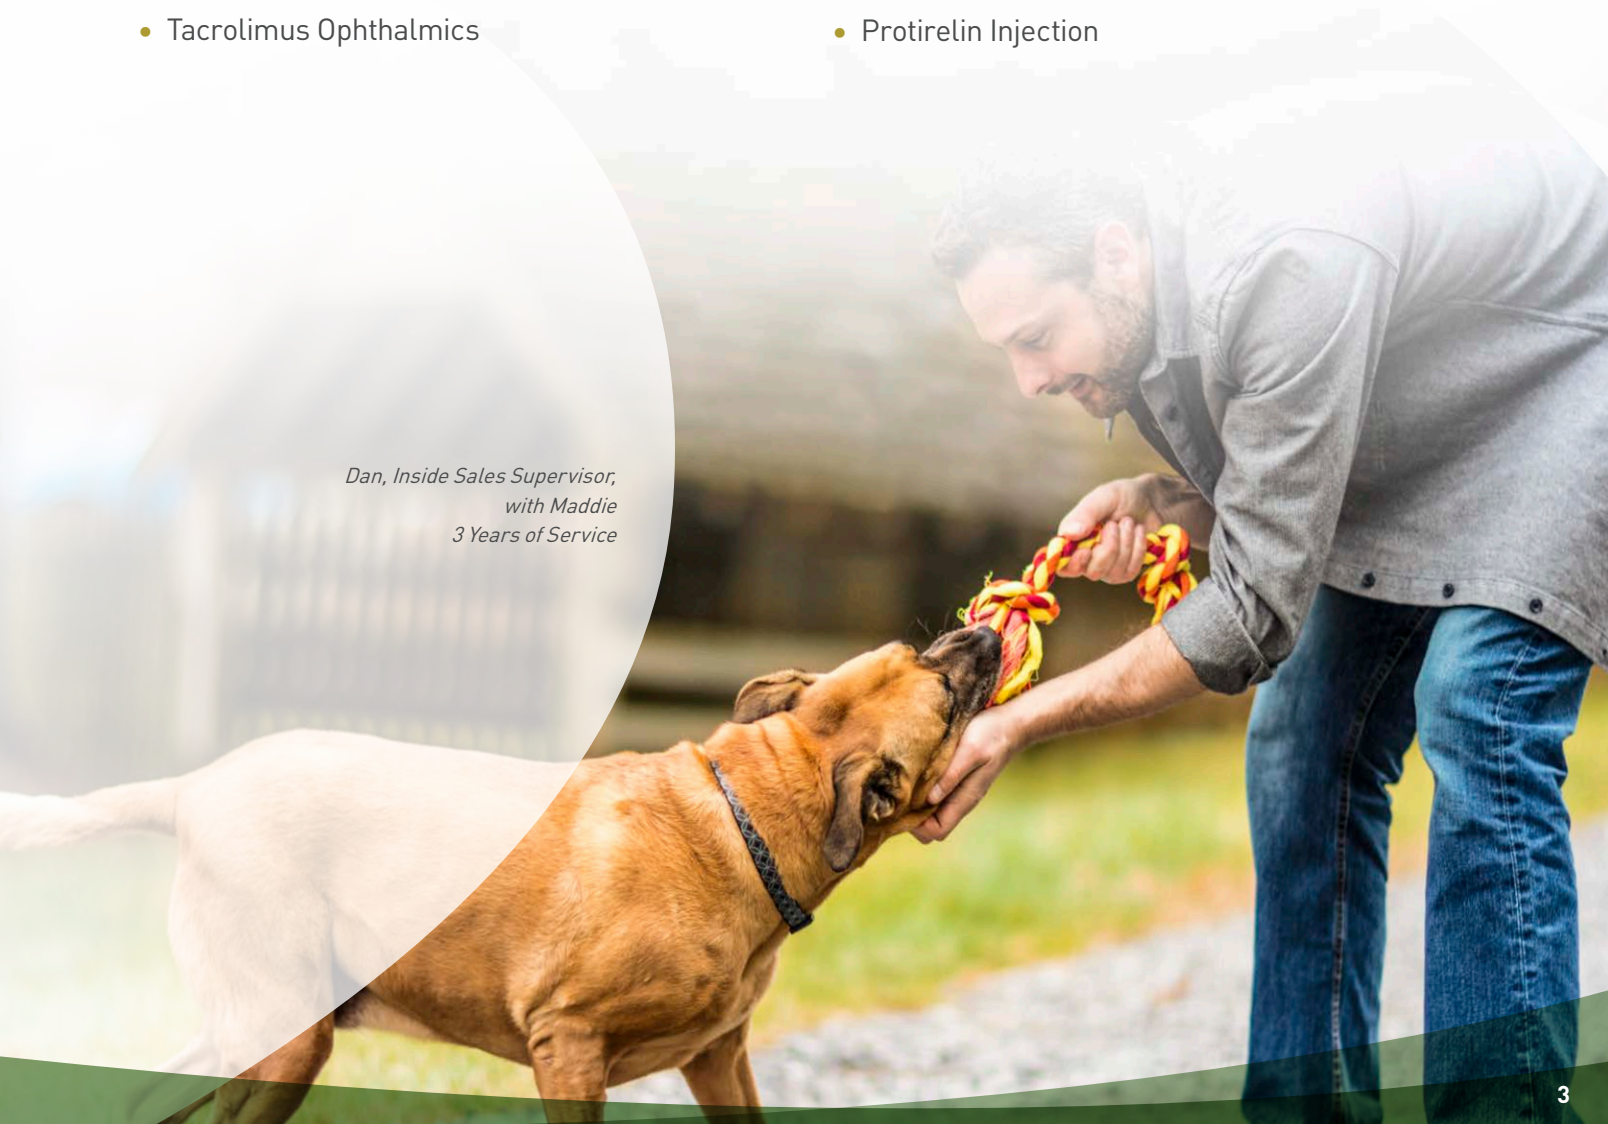

# In 2019, Wedgewood Pharmacy served nearly half a million patients.

## Compounded preparations your peers are prescribing:

- Cyclosporine Ophthalmics
- Doxycycline (as Hyclate) Quad Tabs®
- Gabapentin Tiny Tabs®
- Methimazole Twist-a-Dose®
- Metronidazole (as Benzoate) Tiny Tabs
- Pimobendan Tiny Tabs
- Tacrolimus Ophthalmics
- Cisplatin (Matrix III) Implantable Beads
- Corticotropin Injection
- Medroxyprogesterone Acetate Injection
- Pentosan Polysulfate Sodium Injection
- Phenylbutazone Oral Powder
- Ponazuril Oral Suspension
- Protirelin Injection

# Quality you can trust.

Backed by our rigorous processes that set the bar high in everything from inspections to quality control.

- Dedicated quality team with world class USP and cGMP experienced leadership.
- FDA registered manufacturers for Active Pharmaceutical Ingredients (APIs).
- Exceeding USP guidelines for pharmacies related to inspection and testing of incoming materials and APIs.
- Finished-goods sterility testing performed by an independent, third-party lab. All sterile medications quarantined until sterility and endotoxin testing is completed.
- PCAB Accredited® since 2012.
- Regularly inspected by state boards of pharmacy.
- Over 5 pharmacist checks from prescription intake through dispensing on every order.
- Integrated safeguards through barcode scanning to ensure compounding and dispensing accuracy.

*To learn more about our quality program, view our comprehensive Quality Assurance Checklist.*

*Colleen Mailley,  
Compounding Technician

# Put your mind at ease with DeliverEase<sup>®</sup>

A range of compliance-friendly, innovative dosage forms that may make administering medications easier and treatment less expensive.

**gourmeds<sup>®</sup>**

Tasty, chewable tablets available in chicken, fish, alfalfa, and apple-molasses flavors.

**QuadTabs<sup>®</sup>**

Quarter-scored for maximum flexibility in dosing, it's easy to snap off a half or a quarter dose when needed.

**tinyTABS<sup>®</sup>**

Smaller than a Tic-Tac<sup>®</sup> and may make it easier to pill your pet.

**MediMelts<sup>™</sup>**

Lightly compressed to disintegrate rapidly on the tongue and create a paste that is less likely to be rejected.

*"Thank you for making Gourmeds<sup>®</sup>! My cat only eats crunchy treats and I didn't want to pill him. It's a great solution!"*

**MediMints<sup>™</sup>**

By combining common equine medications with the mint flavor that many horses may love, Medi-Mints may help improve compliance.

*“This is one of those necessary items to have on our shelf! **Tiny Tabs**<sup>®</sup> make it so much easier and safer to dose our small patients. We also don’t have to fight to get them down.”*

### POLOX-A-GEL™

Easily stored as a liquid at refrigerated temperatures, this thermo-reversible poloxamer resolves into a gel at body temperature.

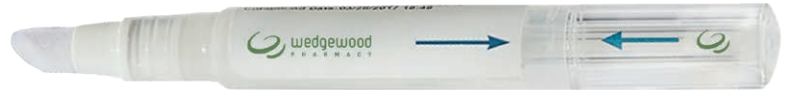

### EZ dose EarPack

One-time application in a convenient 3ml syringe with a soft, flexible applicator tip.

### Twist-a-Dose

Mess-free transdermal applicator that works in just two easy steps to deliver simple dosing, every time.

### EZ dose MICRO

Transdermal delivery system with innovative triad shape for precision handling, no-mess applicator tip, and audible, tactile clicks for consistent dosing.

*“Ketchup, my 16-year-old kitty is doing great on the **Twist-a-Dose**<sup>®</sup> transdermal methimazole. I’m so glad it’s available since I could never get a pill or liquid in him. He’s been successfully on this med for over a year now. Thanks so much for being there for us.”*

# Our biggest offering yet.

# 40 years of innovation.

Partnering with you to provide innovative, custom solutions for your unique needs.

## Technical expertise in specialty and hard-to-find compounded preparations:

- Cardiology
- Equine
- Oncology
- Ophthalmology
- Zoo and Aquarium

## Dedicated R&D Team

- A team of pharmacists and technicians dedicated to researching new, custom formulation requests.
- Over 600 new formulas are researched every month.
- Our formulation specialists are available to help you develop a single preparation that includes multiple medications.

## Fun Fact!

Did you know that cats are more drawn to angles? Our formulations team developed triangular, fish flavored Gourmeds® to help increase medication acceptance in feline patients.

# Over 25 flavors available...

## Sweet

Apple  
Apple Molasses  
Banana  
Butterscotch  
Cherry  
Cherry Vanilla  
Marshmallow  
Molasses  
Peanut Butter  
Strawberry  
Tutti-Frutti  
Vanilla  
Vanilla Butternut

## Savory

Anchovy  
Bacon  
Beef  
Cheddar Cheese  
Chicken  
Chicken Liver  
Duck  
Fish  
Liver  
Triple Chicken  
Triple Fish  
Venison

## Equine-Friendly

Alfalfa  
Apple  
Apple-Molasses  
Molasses  
Peppermint

*Natalie, Formulation Assistant,  
with Slider  
7 Years of Service*

## Bitterness Control

Try adding marshmallow flavoring to help mask bitterness **or** combine any two flavor options to create your own custom flavor!

### All practice data is 100% confidential. Period.

We understand that our compounding pharmacy is an extension of your practice and the relationship you have with your pet owners. We are very proud of our long history partnering with veterinarians to best serve your patients' needs. To this end:

- We do not sell practice data or information about patients to any third parties.
- We do not use practice data to market or sell products to pet owners, other than prescriptions which have been placed through the veterinarian.

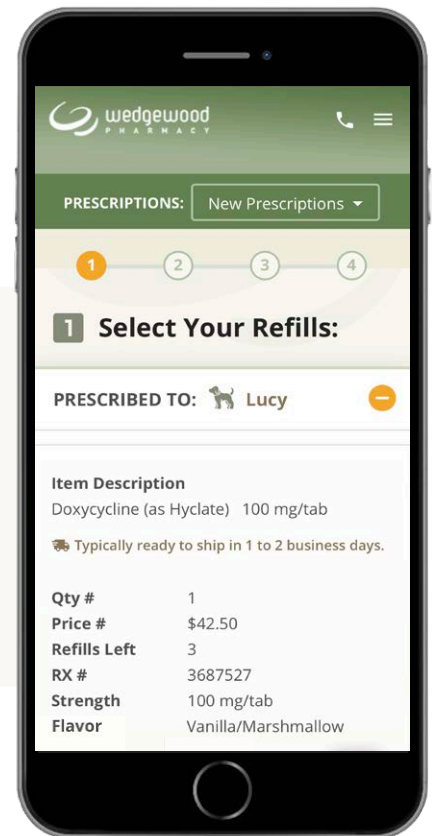

# Easy prescription management is just a click away at MyWedgewoodPet.com

Our mobile-friendly prescription management tool - MyWedgewoodPet - allows busy pet owners to manage their prescriptions from any device!

At MyWedgewoodPet.com, your clients can:

- Fill a new prescription.
- Refill an existing prescription.
- Check the status of their order.
- Track their shipped packages.
- Sign up for our **AutoRefill** program and receive **FREE Standard shipping** on every order.

*Providing an email address for your client when you submit a new prescription allows us to instantly send an email with a link to fill the new prescription. Plus, we can help keep them on track with refill reminders!*

Home Delivery with

**VETSOURCE™**

We know that providing a great client experience is important to you, and to your practice. We have partnered with Vetsource™ to help make your client experience even better by providing a streamlined Home Delivery service! Thousands of Wedgewood Pharmacy preparations are available for home delivery through Vetsource.

Vetsource is a simple, cloud-based ePrescribing tool that allows you to create prescriptions for Home Delivery in seconds.

If you'd like to learn more about Vetsource, visit [Vetsource.com](https://Vetsource.com).

A man with a beard and glasses, wearing a yellow polo shirt with green and red stripes on the sleeves, is lying on his side on a grassy field. He is smiling and petting a light-colored dog that is lying down next to him. The background is a soft-focus green field with small white flowers.

# WedgewoodPharmacy.com

## 40,000 compounded medications available at your fingertips.

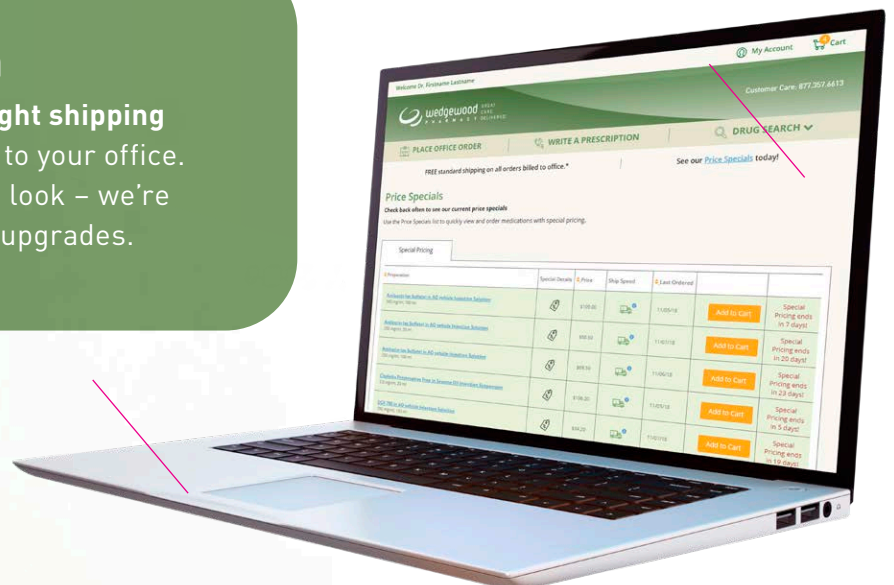

We know that your time is best spent helping your patients, so we partnered with veterinarians to design an ordering tool that could easily fit into your busy schedule.

The industry-leading digital tool has built-in time saving features like:

- Quick re-order from order history.
- A list of 'My Favorites' that you control.
- Quick and easy formulary search with filters for shipping time and compliance-friendly medication indicators.
- Responsive design that works on any device.
- Access to patient profiles and prescription history.

You've also told us that cost savings is important to your practice and your patients – so we made it easy to view quantity price breaks and cost per dose. We even show you when there's a more cost-effective option available!

At WedgewoodPharmacy.com you'll automatically receive **FREE overnight shipping** on your **first order** or prescription billed to your office. If you haven't logged on in a while, take a look – we're certain you'll be pleased with the recent upgrades.
