

REACH is the Regulation on the Registration, Evaluation, Authorization and restriction of CHemicals. It came into force on 1st June 2007. The aim of REACH is to provide a high level of protection to human health and the environment by understanding & managing the risks associated with their use.

A restriction can apply to any substance including those that do not require registration. There are no weight thresholds for restrictions. The substances to which restrictions apply are listed in Annex XVII of the REACH Regulation.

Statement:

Accuride International Ltd confirms that it is aware of and complies with its duties under REACH and Annex XVII of REACH. None of its products or packaging contain any of the Substances of Very High Concern (SVHC) on the REACH Candidate List, in concentrations above 0.1% by weight. None of its products or packaging contain substances to which restrictions apply as listed in Annex XVII of the REACH Regulation.
