

Security at MazumaGo

Our top priority is protecting customer data and transactions.

HOW DOES MAZUMAGO ENSURE MAXIMUM PROTECTION?

Bank Grade Security

We work with major financial institutions to process transactions to their standards and integrate with the same secure technology systems they use. MazumaGo uses 256-bit SSL encrypted payments ensuring bank-grade security for your transactions every step of the way.

Regulated by FINTRAC Canada

MazumaGo is a registered money services business regulated by FINTRAC, the Financial Transactions and Reports Analysis Centre of Canada - an agency of the federal Government of Canada responsible for facilitating the detection, prevention and deterrence of money laundering, terrorist activity financing and other threats to the security of Canadians.

Accredited by the BBB

MazumaGo maintains an "A+" Rating by the Better Business Bureau. For more information, visit their website www.bbb.org and lookup "MazumaGo" or follow [this link](#).

Canadian hosting servers

Our servers are exclusively located in Canada. Consequently, your data is protected by Canadian Law.
