

An aerial photograph of Komodo National Park. In the foreground, a white and brown boat with "RASCAL" written on its side is moving across the deep blue water, leaving a white wake. To the left of the boat, two smaller motorboats are also visible. In the middle ground, there are three small, green, rocky islands with white sandy beaches. The background shows a long, low island with green hills under a blue sky with scattered white clouds.

# A WORLD HERITAGE SITE

The breathtaking Komodo National Park is a UNESCO World Heritage site made up of 3 larger islands (Komodo, Padar and Rinca) and 26 smaller ones, many of which are uninhabited.

Komodo and Rinca are home to the native Komodo dragons, revered by the locals who believe they descend from a dragon princess.

# AN ISLAND OF CONTRASTS

Depending on the season, the terrain varies from desert savannah landscape to lush greenery - both are equally arresting.

The sea around Komodo National Park is famous for its rich marine biodiversity and boasts more than 1,000 species of fish and 260 types of coral.

Dive enthusiasts have also hailed Komodo as one of the world's top 10 diving hotspots.

## DINING

We appreciate every moment is special, and that food can make or break an experience. That's why we've made food a key pillar of every Rascal Voyage.

Our philosophy is based on simplicity. Simple, yet delectable. Fresh produce, dishes packed with flavour. International cuisine with a local twist.

Whether you're enjoying a cheeseburger with an ice cold beer and your toes in the sand; or savouring a perfectly grilled snapper with a crisp glass of white wine, we make sure it is delivered to Rascal perfection.

# GETTING HERE

All voyages in Komodo National Park start and end in the port of Labuan Bajo which is on the island of Flores.

There are multiple daily flights from Bali (1 hour) and Jakarta (2 hours) to Labuan Bajo airport.

The port of Labuan Bajo is just a short 10-minute drive from the airport. Our crew will collect you from the airport or your hotel/villa. The voyage begins at 11am on the first day and ends at 1pm on the final day.
