

Stress-free, Easy-to-use
Simple and Intuitive

DICOM Server + Web-based DICOM Viewer

SonicDICOM PACS

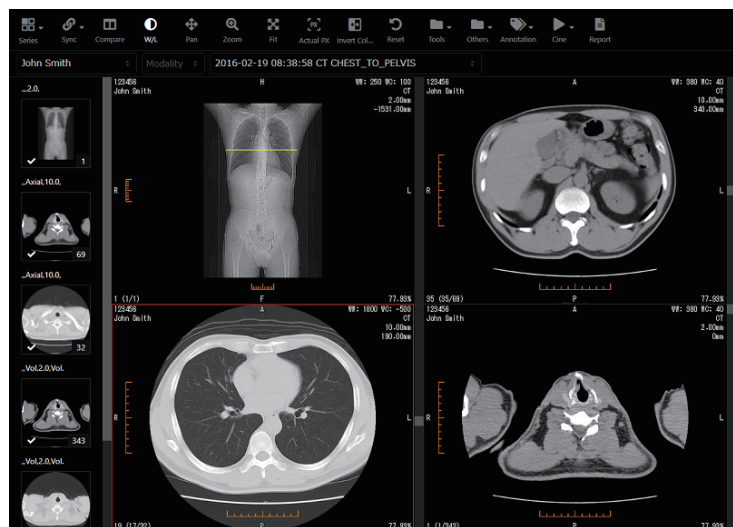

About SonicDICOM PACS

SonicDICOM PACS is the software that combines the capabilities of DICOM Server with web-based DICOM Viewer.

It focuses on simplicity, user-friendly interface and fast browsing.

Minimal setup helps you focus on your work.

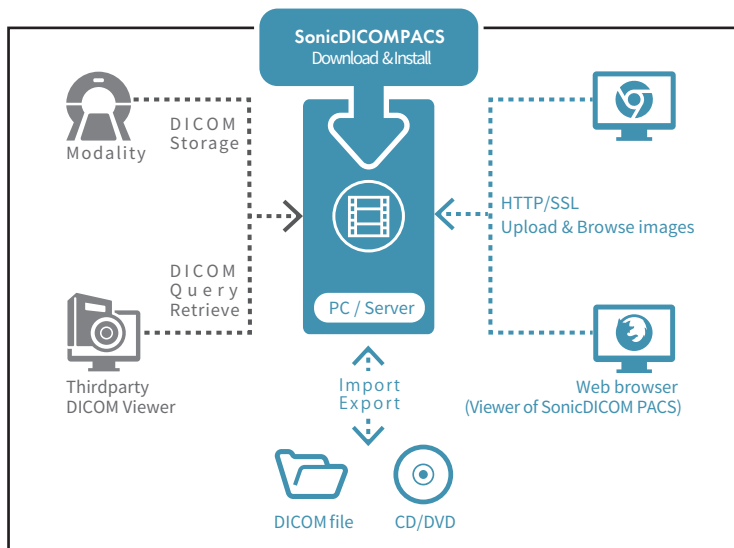

Browsing high quantities of CT, MRI, and other images
It brings a stress-free browsing environment.

No client installation required

Viewer works on web browser.

Client PC does not need to install any specific software, plugins such as Flash, etc.

Since the Viewer is web-based, it can be integrated with EHR, HIS, and RIS seamlessly.

Referring images from any PC in the network with only logging in on web browser.
