Why We're Here

Kamana was born out of the frustrations that one of our founders, John, personally experienced throughout his travel and per diem nursing career. Having spent more than five years working travel contracts across the country, John witnessed first-hand how the inefficient technology being used to attract, onboard, and manage healthcare professionals is resulting in missed opportunities and financial waste for both him and his staffing agency. Kamana was born to make a true improvement to the candidate experience. And to introduce a new meaning to the phrase "operational efficiency" for healthcare staffing agencies and the clients you serve.

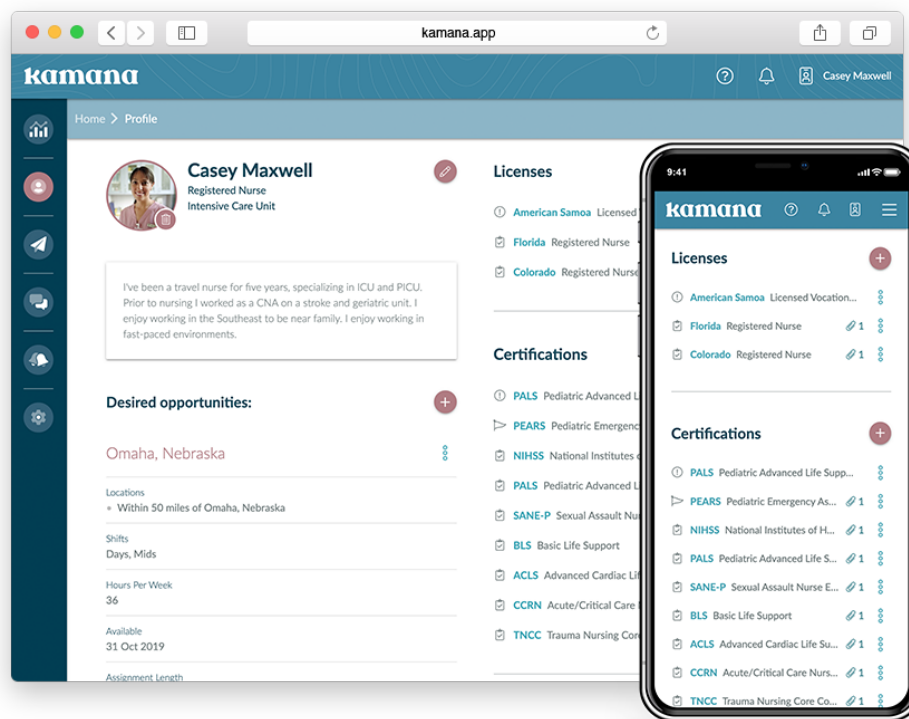

What We Do

User-Focused Application, Onboarding, and Profile Management

- Our mobile friendly, easy-to-use application and onboarding portal creates a seamless candidate experience that can reduce incomplete applications and decrease onboarding time.
- Healthcare professionals with a Kamana profile enjoy a near-instant onboarding experience.
- Agency users can create and collaboratively maintain candidate profiles, with information synced between the agency talent management platform and healthcare professional profile in real time.
- Dynamically search, sort, and filter talent, and store private notes and attachments on profiles.
- Instantly generate resumes and securely share access to talent profiles and attachments online.

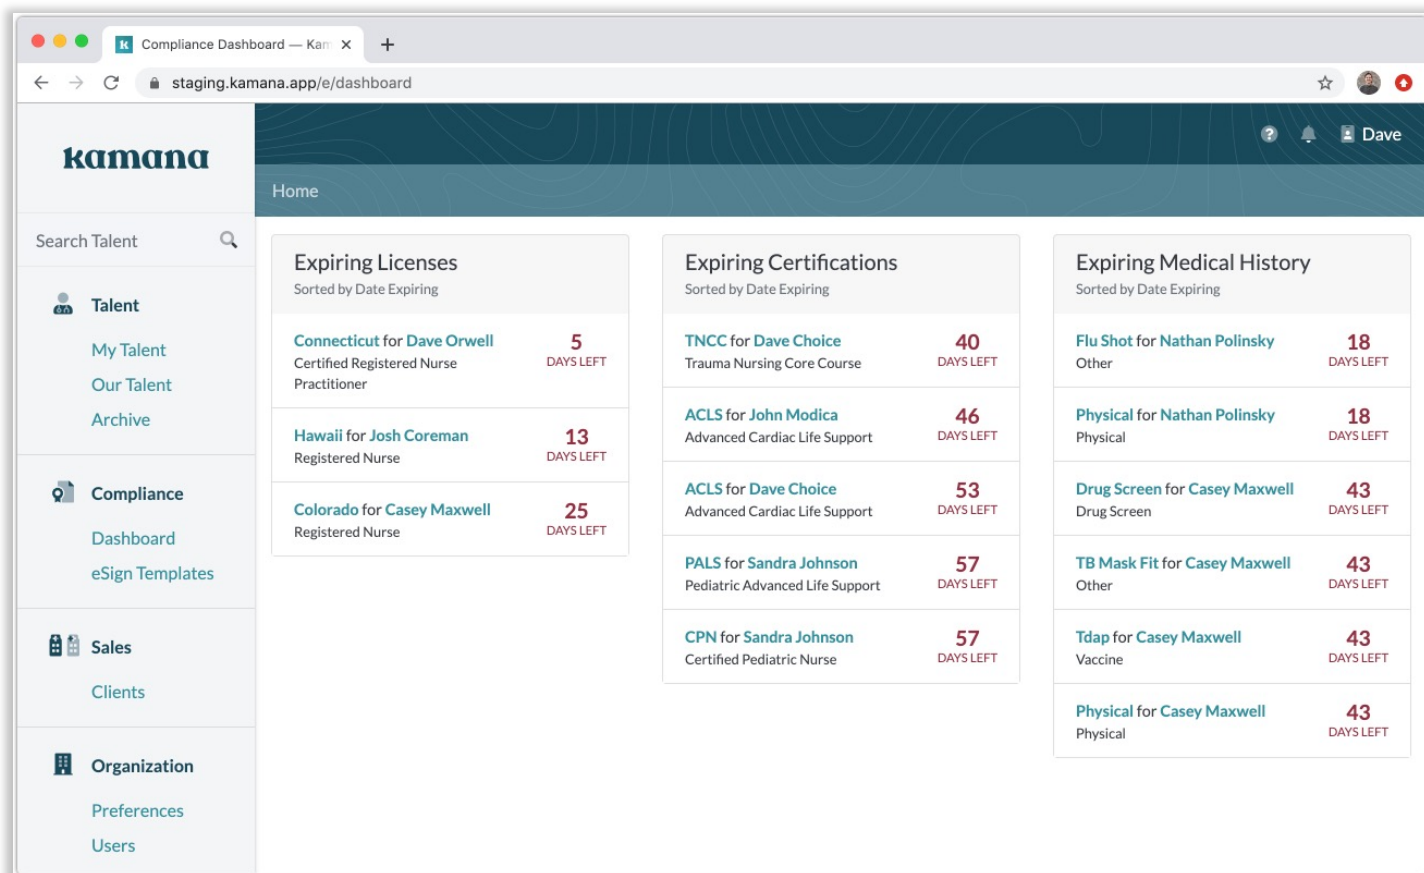

Unlimited Legal eSignatures, Form Filling, and Templates

- Documents can be sent to, filled & legally signed by, and stored for talent directly in the platform.
- Agencies can create an unlimited number of templates and eSignature requests.
- Templates can auto-populate data from the talent profile for increased efficiency.

Automated Credential Management & Strengthened Compliance Workflows

- Agencies and healthcare professionals enjoy automated credential management workflows without duplicating data in multiple places.
- Candidates receive automated credential expiration notifications starting 60 days from expiration, have in-app views of expiring credentials, and multiple flag and countdown alerts.
- Agencies have a credential management module with real time display of expiring credentials.
- Candidate and compliance information can be visible to multiple agency users to provide real time visibility into application, onboarding, and credential management workflows.

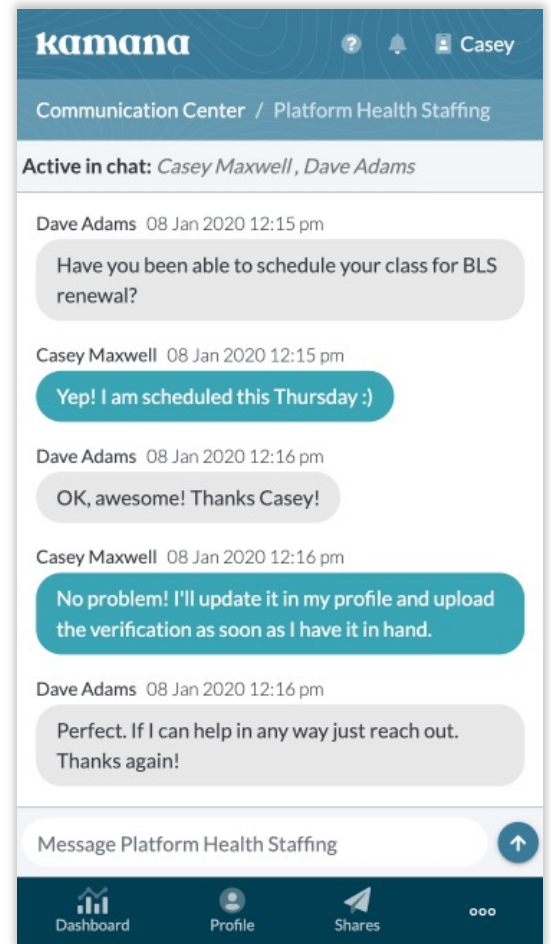

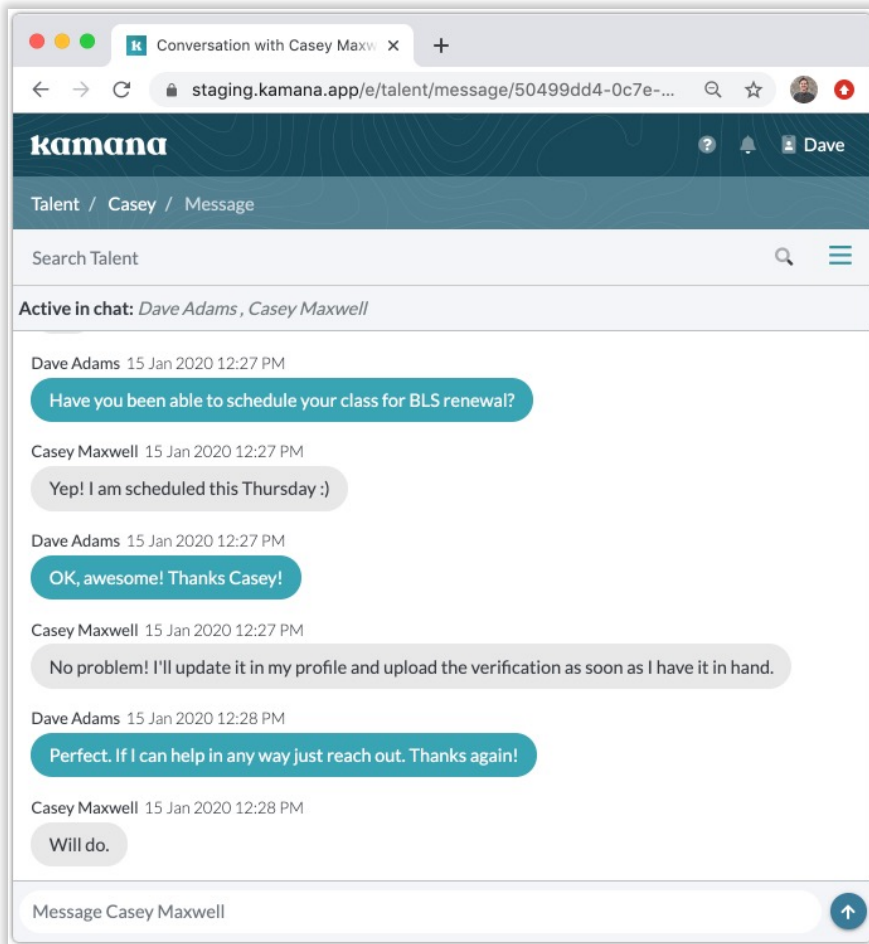

Increased Security and Efficiency

- All parties avoid unsafe data transfer and storage by sending and storing information through our secure and encrypted platform. Learn more under Technology and Security.
- Tech support for internal staff and candidates through live-chat, email, and self-guided articles within the Kamana help center.
- All users enjoy unlimited cloud storage with real time data access from any device.
- Healthcare professionals that create a profile through your agency candidate portal, or independently through Kamana's services, have the ability to retain and maintain their free Kamana profile for life. This enables healthcare professionals to be readily prepared to engage/re-engage with your application, onboarding, and compliance processes at any time.

In App Chat Streamlines Agency-Talent Communication

- Real time in app communication enables agencies to provide talent a single point of contact.
- Each healthcare pro has a direct communication channel within which multiple agency users can participate.
- Users choose how they are notified of messages while inactive in the platform, via text or email.
- Messages are automatically retained within the candidate profile.

Where We're Headed, Together.

Healthcare staffing is changing. Candidate experience and optimization of internal workflows through technology are now key drivers of success and growth within a healthcare staffing agency. Kamana's mobile-first design, user-focused experience, workflow automations, and truly scalable technology makes us a first-of-its-kind software platform, and in turn offers your staffing agency the opportunity to be on the forefront of technology innovation in the healthcare staffing industry.

Kamana is built with the lens of its users in mind, where candidates, compliance personnel, and recruiters alike will feel the platform was made just for them. Kamana simply works, and we're excited for you to join us as we work tirelessly to build a stronger future for the healthcare staffing industry.

Investment

Pricing Summary

Our plans are designed to meet the needs of clients of all sizes. Pricing is determined by the number of healthcare professionals (“HCPs”) on payroll, or weekly billable hours when staffing mostly per diem.

On an ongoing basis Kamana provides the following support as part of the standard investment.

- an unlimited number of internal staff (e.g. recruitment, credentialing, compliance, account mgmt)
- an unlimited number of candidate profile relationships with no data storage limits
- self-help articles, videos, and recorded training sessions available to candidates and internal staff
- personalized training for your team for tier 2 or higher
- dedicated customer success manager for tier 3 or higher

Monthly Software-As-A-Service (SaaS) Subscription

No long term contract required. Billed monthly. Tier selection based on average number of healthcare professionals on payroll (or billable hours for mostly per diem) during the most recent 45 calendar days, then re-assessed quarterly.

	Tier 1	Tier 2	Tier 3	Contact Us
# of active travelers	0-10	11-25	26-50	51+
or weekly billable hours	0-300	301-900	901-1800	1801+
\$/month	\$95	\$325	\$650	Contact Us

Annual Software-As-A-Service (SaaS) Subscription (tier 2 or higher required)

10% discount on above pricing. Annual term length required. Tier selection assessed and billed at beginning of contract term based on average number of healthcare professionals on payroll (or billable hours for mostly per diem) during the previous 45 calendar days, then re-assessed annually.
