

Extend the reach of YOUR continuing education and professional development programs

Run your extended educational programs like the business you always wanted. As the competition increases from educational marketplaces, online courses, training and more, today's CEPD executives are looking for solutions that can easily evolve based upon their needs. Whether you need a virtual classroom with live or recorded videos, interactive teaching features, the ability to bring in outside speakers and more, we work closely with you to support your strategic initiatives by:

- Increase your retention and graduation rates
- Connect students to all your support services
- Improve time-to-degree performance
- Ensure students feel safe on campus
- Improve the access to all your services

Powering Continuing Education

Although the role of continuing education and professional development continues to grow, your budget and staff resources don't always follow. Discover a cost-effective, flexible solution that can be leveraged for a wide range program delivery including:

- Virtual Classroom
- Hybrid Classroom
- 1:1 Video Chats
- Assignment Reviews
- Collaborative Spaces
- Corporate Programming
- Shared Course Materials
- And more...

Introducing QuadC for Continuing Education and Professional Development

QuadC for Continuing Education and Professional Development is the most flexible platform that enables you to run your education programs to quickly evolve and adapt to students' expectations and learning trends while extending your reach and revenue potential.

Key Platform Features:

Virtual Classroom

We put the cohort group at the heart of our solution. Manage your entire program from start to finish with everything easily tracked and managed in one place.

- Class schedule
- Files, notes, videos, slides, chat
- Collaborative whiteboard

Assignment Reviews

Assignments are systematically sent to academic advisors and they can effectively identify areas of improvement and offer guidance to students.

- Individual & Groups
- Virtual
- Calendar Mgmt

Tutoring Support

Help get your students up to speed before classes begin to ensure they are successful from day one. Then include coaches, tutors and advisors into your programming as needed.

- 1:1 Private Tutors, Coaches, Advisor
- Outsourced Tutors (if needed)
- Alumni Collaboration (future)

Video Conferencing

Deploy a secure, cloud video communications platform supporting 1:1 and 1-to-many, up to 100 participants, in a virtual classroom. Ideal for larger training and group collaborations.

- Easy to use and set up
- Share and present files
- Secure, cloud-based

Feedback

Deploy an online survey system to help students, faculty, staff, and guest lecturers to submit reports about key areas you require to gain further insights.

- Net Promoter Scores
- Program Feedback
- Mid-Year Reviews

3rd Party Integrations

Easily connect to your other tools to ensure there is no duplication in investments and data entry. If you need something custom, just ask!

- SSO
- LMS
- Zoom & WebEx

Compliance and Security

We leverage the latest technologies and standards to ensure your student data remains private and secure

- End to end encryption
- Dedicated servers in the US and in Canada
- FERPA Compliant
