

BECOMING A RECOVERY FRIENDLY REGION

Olympic Community of Health (OCH) is sharing key findings, insights, and opportunities to address **stigma of substance use disorder** in the Olympic region.

Want OCH to come to you?

OCH is offering free presentations and discussions with community groups, Tribes, and organizations across Clallam, Jefferson, and Kitsap Counties.

What do presentations include?

It depends on what you are looking for!

The OCH team is catering presentations to the unique needs of each group.

- Presentation length may vary between 15-60 mins
- Content may include:
 - Overview of: **What is stigma?** What contributes to and perpetuates stigma? How it impacts the community
 - A look at **regional quantitative data** around regional substance use, overdose rates, and treatment patterns for both adults and youth
 - **Key themes and quotes** from 10 focus groups and over 200 survey responses
 - Examples of **local programs/projects** successfully addressing stigma
 - **Opportunities for action** towards becoming a recovery friendly region
- OCH staff can facilitate virtually or in-person

Connect with OCH to learn more about hosting a Recovery Friendly presentation by emailing och@olympicch.org. Below is a sneak peak of some of the findings.

How does stigma impact communities?

In the Olympic region, approximately

1 in 2 adults

2 in 5 youth

on Medicaid received the SUD treatment they needed
