Full Campus Experience and Expertise

Our team has decades of experience when it comes to delivering accurate building documentation for full academic campuses. We've had the privilege to work on some of the most historic and high profile campus projects in the United States, and we know what's required to get the job done right. Below is a selection of relevant projects we have measured and modeled in recent years.

- 1. Williams College, Williamstown, MA, model of the full campus, more than 3,500,000 sq. ft.
- 2. **Tufts University**, Boston, Medford, & Grafton, MA, model of the entire campus, 3,000,000 sq. ft.
- 3. Emerson College, Boston, MA, digital model of the full campus, approximately 1,200,000 sq. ft.
- 4. Yale University, New Haven, CT, measured over 4,000,000 sq. ft. total across 24 buildings
- 5. Athenahealth Campus, Watertown, MA, multiple buildings totaling more than 1,100,000 sq. ft.
- 6. Pine Manor College, Chestnut Hill, MA, measured over 540,000 sq. ft. of space
- 7. **The Buckingham Browne and Nichols School**, Cambridge, MA. roughly 350,000 sq. ft.
- 8. Dean College, Franklin, MA, measured and modeled approximately 400,000 sq. ft. of space

3D BIM Documentation of Building Complex - Tufts University Medical School, Boston, Massachusetts
