OPERATIONS ASSOCIATE

FIND YOUR FIT

Make a difference alongside a pioneering team of professionals

Why Existing Conditions?

Existing Conditions is the leader in 3D laser scanning, reality capture, and building documentation. Since 1997, we have been providing clients with situational awareness and the confidence to make smart decisions concerning their most valuable assets.

Over the past two decades, we've measured and modeled over 200 million square feet of space and have served clients and projects across the globe.

Existing Conditions' personnel field testing the latest SLAM data capture technology, which allows for laser scanning to occur while in motion.

Operations Associate

Existing Conditions – New York Metropolitan Area Positions Available

If you're looking for an opportunity with an industry-leading company that operates with the mentality and speed of a small disruptor, then this position could be a great fit for you. You will gain skills in generating and managing 3D laser scan data collection in the field. You'll work with a diverse team of **stakeholders who are passionate about** measuring and modeling buildings. And you'll make a real impact by collaborating with our team to produce accurate building documentation using the latest 3D laser scanning technology.

Key Responsibilities

- Traveling to job sites and accurately representing the company and its values

- Generating, managing, processing, and registering 3D laser scan data

- Coordinating equipment logistics and properly caring for our scanning hardware

"I could have never wished for a more welcoming and encouraging team at Existing Conditions. Since day one, my coworkers have taken the time to show me how much they care about developing my skills and knowledge. It's like a close knit family. The team celebrates your successes, while simultaneously pushing you to evolve into the best version of yourself."

- Vyper LaTulippe, Operations
