

Isolation Guidance

Advice for persons with & without symptoms of infection, who are isolating themselves due to potential exposure to novel coronavirus (COVID-19). These actions will help to protect others inside & outside of your home from infection.

Isolate yourself

stay in your home or temporary residence, do not go to work, school or other public areas

separate yourself from others in your home or temporary residence

use separate facilities if sharing, these should be cleaned before use by others

have food, medication & other supplies delivered to you

do not have visitors in your home or temporary residence

there is no evidence that pets can be infected with coronavirus however, it is good practice to wash your hands after contact

Prevent the spread of infection

frequently **cleanse hands** with soap & water or an alcohol-based hand sanitizer

cough or sneeze in a tissue & bin it

use separate household items such as towels, bedding, cups & dishes

wear a mask when you are around others, **only** if you have been told to do so

regularly wash hands with soap & water

Take care of your health & wellbeing

For those with symptoms of infection:

get plenty of rest until you feel better

drink enough fluids so that you pass urine regularly

take paracetamol as advised, to reduce pain & fever

For everyone in self-isolation:

keep in contact with friends & family by phone, video & online

carry on hobbies & interests within your home if you are able to

take regular exercise within your home if you are able to

Seek help if you develop symptoms or if existing symptoms worsen by calling the flu hotline on **1-800-534-8600** or **947-3077**. For emergencies (eg. difficulty breathing) call **911**.
