

**Subject:** Your 2019 AmTrav Business Travel Report

**Subtitle:** See how much you traveled in 2019. Happy New Year!

Dear Elliott,

Happy 2020!

We're thrilled to announce that AmTrav's a2b booking tool now includes your personal travel stats, including all of 2019 -- see how far you traveled, where you stayed, and even how much more or less you traveled versus 2018.

Use this link to view your travel data, or find it on the left-side toolbar in "Travel Reports:"

**[View My 2019 AmTrav Travel Data](#)**

Since it's New Year's resolutions season, AmTrav wants to share one of our resolutions: we will do a better job communicating with you. We plan to share time- and money-saving AmTrav tips with you, and we will ask for your feedback on our product and service. (Hint: up next are easier-to-read trip confirmation emails!)

In the meantime, happy New Year, and talk to you soon!  
Elliott McNamee

**More about a2b Travel Reports:** The Travel Reports Dashboard shows your business travel statistics from 2015 to present (as available) including airfare spending, hotel spending and car spending through AmTrav. Clicking on most data fields will give you more information about that spending category, as will the toolbar at the top of the page. Using the Date filters at the top of the page you can select trip data to display by either the dates you booked your travel or the dates you actually traveled.
