

Subject: Private jets for essential business travel

Subtitle: Thank you for your continued trust in us. Please stay safe.

Dear Elliott,

We hope everyone is staying safe during these scary times.

While we know that travel is rightly the last thing on most of your minds right now, we also know that some of you are on the front lines of the fight against COVID-19, are working to keep our supply chain moving, or are otherwise still conducting essential business. So we wanted to make you aware that, if you're interested, AmTrav can help you arrange private jet travel.

Private jet service is costly, of course, but it does provide a secure and convenient alternative to commercial air travel. For essential travel, private charters are a safe way to minimize risk to your employees and offer peace of mind. If you're interested, we have contacts at several operators which our team can leverage on your behalf, so you don't have to spend time calling around and working out the logistics.

While we navigate this challenging time, AmTrav will continue to explore creative ways to help in any way we can, whether it's canceling previously booked trips, getting travelers home who are still abroad, or assisting with essential travel. We're still here for you, so please reach out if you need us. Thank you for your continued trust in us.

Please stay safe.

Rebecca Gavin
