

End-of-Support Notice for the ActiveVideo CloudTV Platform V2.11

ActiveVideo announces the upcoming end-of-support for the CloudTV Platform V2.11 on March 28th 2021.

Description:

The CloudTV Platform enables Pay-TV operators to deliver HTML5 user interfaces – including Pay-TV linear guides, Video on Demand UIs and OTT applications over both QAM and IP distribution networks using the MPEG2 and H.264 video codecs.

The CloudTV Platform is the core platform that make up the GuideCast and StreamCast product portfolio.

- Table 1 Describes the end-of-life milestones, definitions, and dates
- Table 2 Lists the affected product part numbers.
- Table 3 Recommendations
