The ALASKAN - WALKAROUND DISPLAY MERCHANDISER

is our latest innovation. It was developed from the ground up to incorporate Novums LEAP technology. The benefits of which are clear - No frost build up internally, unique cassette refrigeration system & the lowest running costs of any cabinet of its size on the market.

The Grand Cayman combines superior internal volume, with excellent product visibility & product facings. Access from both sides with 4 x glass lids. 1 x ultra-bright centre mount LED lighting combined with a clean white interior provides spectacular illumination of the product. This combined with Novum's LEAP Technology, makes a truly class leading cabinet.

The unique curved glass on the end case offers an unequalled access into the cabinet. In practice, this means that the whole of the cabinet can easily be shopped from either side. The Novum Alaskan range is guaranteed to enhance the image of your store, save you money and improve your customer shopping experience.

It is a versatile cabinet that can be used as a stand-alone unit, as part of a line-up, back to back or as part of a full island and is available with sliding lids.
