

**RULES OF BUDGET ALLOCATION FOR ACCREDITED APPLICANTS
UNDER ERASMUS+ KEY ACTION 1**

National Agency	IE01, Ireland, Léargas The Exchange Bureau
Field	School Education
Call year	2021

This document defines detailed rules of budget allocation for accredited applicants, in line with the framework established in the Erasmus+ Programme Guide:

The quality of the applicant's Erasmus Plan has been assessed at the accreditation application stage and therefore no qualitative assessment will take place at budget allocation stage. Any eligible grant application will receive funding.

The awarded grant amount will depend on a number of elements:

- the total budget available for allocation to accredited applicants
- the requested activities
- the basic and maximum grant
- the following allocation criteria: financial performance, qualitative performance and policy priorities

Detailed rules on basic and maximum grant, scoring of the allocation criteria, weighting of each criterion, the allocation method, and the budget available for accredited projects will be published by the National Agency ahead of the call deadline.

1. AVAILABLE BUDGET

Total budget available for allocation to accredited applicants ¹ :	At least €326,015.70
---	----------------------

The available budget will be apportioned between the applicable allocation criteria in the following way²:

Basic grants and financial performance	At least €60,203.14
Qualitative performance and priority activities	At least €240,812.56

In addition, the following amount will be reserved for budget categories based on reimbursement of real costs:

Inclusion support for participants and exceptional costs	€25,000
--	---------

In case of need, the National Agency may further increase the reserved amount. If part of the reserved funds is left unused, the National Agency may distribute them through a second allocation exercise.

2. ESTIMATING THE BUDGET REQUIRED TO IMPLEMENT THE REQUESTED ACTIVITIES

2.1 Maximum grant

We have set no maximum grant in 2021.

2.1. Competitive allocation

If the total budget available for allocation to accredited applicants is not sufficient to provide each applicant with the budget required to implement their requested activities (taking into account the rules on maximum grant defined in section 2.1), then a competitive allocation will take place as described below in section 3. However, if the total available budget is sufficient to fully address requests of all applicants, then the budget allocation rules described in section 3 will not apply.

¹ The final allocated budget may be lower than the specified amount if all applicants have been awarded the maximum amount according to the rules set out in this document. If additional funding becomes available, the National Agency may increase the available budget.

² Exceptionally, the specified amounts may be lowered if the budget required for inclusion support and exceptional costs is higher than originally foreseen; if all applicants have already been allocated the maximum amounts according to the rules set out in this document; or if a minor correction is required due to rounding rules.

3. BUDGET ALLOCATION RULES

Budget allocation will take place in multiple phases. In each phase, the available budget will be divided between eligible applicants based on the described criteria³.

Applicants that receive the full budget required to implement their requested activities (or that reach their maximum grant) will not participate in further allocation. Any surplus funds will be divided among other applicants based on the allocation rules as specified for each phase. All allocated amounts will be rounded to the nearest whole Euro.

3.1 First phase: basic grants and financial performance

The basic grant set for Accredited organisations in the field of SE is €10,033. This figure was determined following a review of minimum and maximum grants awarded to decentralised Erasmus+ school projects involving staff and pupil mobility in 2018, 2019 & 2020.

There will be no criteria on financial performance for the May 2021 deadline for Accredited organisations.

3.2 Second phase: qualitative performance and policy priorities

The purpose of the qualitative performance criterion is to ensure that accredited applicants deliver good quality activities and gradually progress towards the objectives of their Erasmus Plan. In addition, applicants may score high if proposing to implement priority activities.

The budget assigned to this phase will be divided among the applicants in proportion to their score. The score of each applicant is calculated in two steps:

- a) The applicant's base score will be equal to the evaluation score of the applicant's accreditation application⁴.
- b) A bonus to the base score will be applied according on the following criteria.
 - Involvement of participants with fewer opportunities:
 - Implementing long-term learning mobility of pupils

The total of these indicators will be taken as a percentage of the overall numbers of participants in the application form. The percentage will be divided by 10 to give the number of points to be added as a priority bonus. The maximum number of priority bonus points that can be awarded is 10.

The overall score for each applicant will be calculated in the following way: the base score and bonus will be added together to determine the overall score.

³ When calculating the applicants' performance, the National Agency may exclude from consideration past projects that have been negatively affected by the COVID-19 pandemic or other events outside of the beneficiary's control (*force majeure*).

⁴ In future calls, the evaluation results of reports on progress of the Erasmus Plan objectives and the respect of Erasmus quality standards will be taken into account (once they are available).

4. TOTAL AWARDED GRANT AND TARGETS FOR DELIVERY

For each applicant, the total awarded grant will be the sum of amounts they have received in each allocation phase. If any requests for inclusion support for participants and exceptional costs have been approved by the National Agency, these amounts will be added to the total awarded grant.

Before issuing a grant agreement, the National Agency will calculate appropriate targets for delivery. If the applicant has been awarded the full budget required to implement their requested activities, then the activities requested in the application will become the targets for delivery. If the awarded grant is lower than the full budget required to implement the requested activities, then the targets will also be lowered proportionally to ensure that the applicant is able to deliver them.

The National Agency can make limited modifications to the proportional adjustment in order to allow for a better fit between the awarded budget and target activities, to ensure coherence with the approved Erasmus Plan, to provide adequate support for priority activities, to maintain at least one participant in each activity type and category requested by the applicant, and to comply with any limitations defined in the Programme Guide.

Beneficiaries are able to implement the target activities with a wide flexibility, while remaining within the scope of their approved Erasmus Plan. Delivery of agreed activities and targets will be evaluated at the final report stage.
