

PrimeGov Integrations

Laserfiche, Zoom, Microsoft Office365 SSO, Google SSO, and YouTube

PrimeGov:

PrimeGov empowers local governments to optimize and digitize their agenda, meeting, and committee management processes with a single end-to-end cloud-based solution. With PrimeGov, clients can seamlessly host hybrid meetings with remote voting capabilities; therefore saving time, increasing efficiency, and promoting transparency.

We build our solution on widely used and supported web applications. Technology, particularly video, has improved dramatically over the last few years. Our role as a company isn't to reinvent the wheel but to adapt software to meet the specific needs of clerks.

We provide out-of-the-box Laserfiche, Zoom, Microsoft Office365 SSO, Google SSO, and YouTube integrations to pair our best-in-class solutions with our clients' existing systems.

Laserfiche®

At PrimeGov, our customers' needs are our top priority. We have established a Laserfiche integration at the forefront to help our customers manage their documents and link with their existing software.

The PrimeGov integration with Laserfiche provides two primary features:

- Documents, and their related metadata, can be published to selected Laserfiche folders when pulled from PrimeGov.
- Laserfiche folders can be accessed to select files to upload when adding attachments to sections and items in PrimeGov.

Our solution removes the need for users to manually download files from one system to place in the other.

The mapping of metadata when publishing documents from the PrimeGov system into Laserfiche provides additional time savings and error reduction, ensuring data is accurate and present in all files.

At PrimeGov we focus on the problem our clients are trying to solve, working with them to find the best possible solution. We are open to integrating with compatible providers of solutions that compliment our product, where we can work together to provide a service that helps our client get the job done.

Nicola Sullivan
VP Product Management | PrimeGov

zoom

The world is moving to virtual and committee/board meetings are adjusting fast. At PrimeGov, we support and enable our customers to meet and to work with their users and constituents where they are: online.

We have integrated with Zoom, the popular video conferencing tool, to provide features that support virtual committee meetings. With Zoom integration, you can host virtual meetings, video conference, and:

- Live-stream video conferences directly to YouTube.
- Share meeting information with the public: items under discussion, a summary of vote results, streamed video, and more.
- Prompt members with vote options.

- Capture minutes, motions, and vote information in the PrimeGov application.
- Run and stream multiple meetings at the same time.

Our Zoom integration empowers local governments to get citizens seamlessly involved in the democratic process.

YouTube

PrimeGov seamlessly integrates directly with YouTube to live-stream your meetings and retain all past meeting recordings. Once PrimeGov is connected to the client's YouTube channel, public meeting videos will be created and linked from PrimeGov automatically.

- Establish a direct connection to their YouTube channel.
- Automatically create videos from within PrimeGov, without the need to access YouTube.
- Control meeting settings including:
 - Privacy settings
 - Streaming options
 - Streaming resolution

- Add alternative video links from YouTube post-meeting.
- Live-stream YouTube videos and make them available post-meeting.
- Embed YouTube videos directly into our Public Portal, with direct links to indexed timestamps recorded on an item during the meeting.

Office 365 and Google

Single Sign-On (SSO)

Managing many passwords across multiple applications can turn into a maintenance nightmare and frustrate your users. PrimeGov has designed a single sign-on (SSO) to work with Microsoft Office365 and Google to simplify logging in and enhance security for our users.

- With SSO, PrimeGov clients can:
 - Manage user passwords in a single location: Office365 or Google.
 - Log in to PrimeGov with a single click, using saved Office365/Google passwords.
 - Reduce the issues with forgotten passwords for users.

At PrimeGov, we take pride in our consultative approach towards product creation and enhancing the customer experience.

If you have any questions, please email sales@primegov.com and we will be glad to guide you.
