ABOUT BALYO

BALYO transforms standard forklift trucks into standalone intelligent robots thanks to its breakthrough proprietary Driven by Balyo™ technology. The geoguidance navigation system developed by BALYO allows vehicles equipped with the system to locate their position and navigate autonomously inside buildings. Within the automated handling vehicle market, BALYO has entered into two strategic agreements with Kion Group AG (Linde Material Handling's parent company) and Hyster-Yale Group, two major operators in the material handling sector. BALYO is present in three major geographic regions (Americas, Europe and Asia-Pacific). Its sales revenue reached €16.4 million in 2017.
