

Influenza Support

Supports tracking flu shot adherence by confirming vaccinations or directing people to nearby locations to receive vaccinations. Text Message Enrollment supports scalability, while Pick & Choose Modules include: Vaccine Check-In, Awareness & Education, and Symptom Tracking throughout flu season.

Example Messages

Have you received a flu shot for this upcoming fall & winter yet? (2020-2021) Yes or No?

NO

Ok thanks for letting us know. Text back your zip code and we'll send you nearby locations where you can get a flu shot.

63033

The zip code you entered is '63033'. Reply '1' if correct or '2' if you want to change to a different zip code.
